SELECTMEN'S REPORT.

In presenting this, our first report, in regard to the highways, we beg leave to refer to the report of the Superintendent of Streets to the Selectmen, in which we have the following items of interest.

Amount of appropriation in March,	$6,000 00
" " " Sept.,	1,500 00
Received for labor, concreting, &c.,	880 00
	$8,380 00
Expended,	8,337 40
Balance unexpended,	$42 60

We find that it has been the practice for a number of years to leave some bills due the very last of the year to be paid the following year; this we have tried to remedy. There has been paid for unpaid bills of 1876-77, $702.25; $38.81 of same being paid since April 1st.

There was remaining of the appropriation in the Treasury April 1st, $3,823.65, of which has been paid for bills due from January 1st to April 1st, the sum of $284.56.

There are no known bills due by this department to date.

We think we can confidently assert that, although some work has been left unperformed (for lack of funds), there has been no considerable amount expended upon the streets which was not an actual necessity.

The following is a summary of the work performed by this department during nine months, ending Dec. 31, 1878:

Total number of loads of gravel placed upon the streets, including 831 loads of stone, 5,096.

Quite an amount has been teamed a long distance, as will be perceived by the number placed upon each street.

Arlington Av.,	1,218	loads	Mystic Street,	829	loads
Appleton Street,	4	"	Mill "	37	"
Academy "	17	"	No. Union "	81	"
Brattle "	74	"	Park "	2	"
Broadway,	15	"	Park Av.,	87	"
Bacon "	9	"	Pleasant Street,	580	"
Central "	54	"	Russell "	5	"
Court "	6	"	Schouler Court,	40	"
Dudley "	39	"	Summer Street,	92	"
Decatur "	14	"	Spring Place,	12	"
Forest "	86	"	Tufts Street,	694	"
Grove "	93	"	Walnut Street,	3	"
Lowell "	2	"	Water "	42	"
Lake "	758	"	Warren "	38	"
Mt. Vernon "	49	"	Winter "	116	"
Total,				5,096	"

Arlington Avenue.

Some portions of this Avenue have been recoated with gravel, which experiment has not proved a success when put on in too great a depth, causing it when wet to be muddy, and the heavy teams to make hollows or depressions, and in dry time to grind up and blow away.

Two sections have been repaired, one from Horse R. R. Station to Mill Street, and one from Steam R. R. track to Medford Street, by the use of crushed stone, in some places

to the depth of 12 inches, coated with blue gravel, and rolled, thus crowning the street so that after heavy rains it becomes dry, and secures to all who pass over it a smooth and easy road. By this method of repairing (for certainly much of the street is flat and rough, and needs to be crowned), the great expense of repicking is saved, and the breaking of the foundation, which can never be more firm than now, is avoided. Should this plan be adopted, and the worst sections repaired each year, in a short time, we think the Avenue would be one of the best and most frequented thoroughfares in this part of New England. That portion of the Avenue from Alewife Brook to Teel Street, and from the old brick school-house to the "Foot of the Rocks," is in need of repairs. But little has been done from the "Foot of the Rocks" to Lexington line, for the reason of lack of funds, and the opinion that when repairs were made they should be quite extensive. There is need of something being done there early in the spring, more than can now be foreseen upon any other street in town. Should the hill at the "Foot of the Rocks" be excavated 3 or 3 1-2 feet and macadamized, the gravel there obtained could be used on Lowell Street, where it is much needed. Considerable trouble and expense has been caused heretofore by the vast amount of water coming from Appleton Street. The culvert at the foot of Appleton Street has been taken up and enlarged, a grate and cesspool put in, which has remedied it in part. After the water leaves this point it has to run nearly on a level, causing the gutters to overflow, and making the street icy in winter. Should a culvert be put across the Avenue from the southerly side to Bow Street, taking the surplus water, running thence to the stream in rear of Elbridge Farmer's, we think no future trouble would be experienced.

Brattle Street.

A portion of this street has been crowned with gravel, and the gutters cleared. It is now in good condition.

Central Street.

That part of this street between the Avenue and Bacon Street, was nearly the whole year wet and muddy. It has been crowned with gravel, and is in good condition.

Forest Street.

The gutters have been cleared, several large stones removed from the road-bed, and a portion regravelled.

Grove Street.

This street is now in very good repair, a part of it having been regravelled. The steep grades either side of the railroad wash somewhat, and require a few loads of gravel annually. The water from Summer Street, formerly deposited itself upon the estate of Mrs. Casey. Gutters and bars have been formed turning it upon the land of Andrew King.

Lowell Street.

With the exception of gathering the loose stones, nothing of any amount has been done. Some portions of this street are very flat and rough, with many springy mud holes, and need repairing very much.

Lake Street.

The first work of the season, was the macadamizing of this street from the residence of Josiah Crosby to the railroad crossing. The old road-bed was removed, a heavy body of crushed stone used, coated with two inches of gravel, thoroughly rolled, and it has stood the wear of the

heavy teaming satisfactorily. The hill leading easterly from Belmont line has been thoroughly repaired with stone and gravel. This part of the street was greatly out of repair having been badly washed, and requiring quite an amount of material to properly crown the centre. The gutters have been cleared, and Lake Street will, we think, need no extended repairs for a long time.

Mt. Vernon Street.

The gutters have been cleared, a portion regravelled, and this street is in good condition.

Mystic Street.

This street has been quite generally repaired. The greater part of the repairs was made on the hill near the Winchester line (called New Mystic), requiring about six hundred loads of material. The gutters have been cleared and the entire length has received attention by covering the low and uneven places with blue gravel.

Park Avenue.

Some repairs were necessitated by the heavy showers of the summer. Two concrete crossings have been put down the past season. The loose stones which, on account of the very steep grade, are constantly working up, have been several times gathered. Some portions will soon have to be regravelled in order to throw the water into the gutters.

Pleasant Street.

Has been coated with gravel the entire length, and is in excellent condition.

Schouler Court.

A portion has been regravelled, gutters cleared and sidewalk raised, which has made a decided change, as heretofore it was wet and muddy a great part of the time. A railing has been put up at the easterly terminus of the street, thus preventing teams from accidentally driving off the embankment.

Summer Street.

The gutters, which in many places were higher than the road-bed, thus throwing all the water upon the street, have been generally cleared. Some new gravel has been used and with one or two exceptions, requiring a few loads of gravel, the street is in good repair.

Tufts Street.

This street was brought to grade during last winter. A large amount of blue gravel was used to properly crown the road-bed, and it is now one of the best streets in town. A sidewalk has been made upon one side of the street with very little expense, as the material used was taken from the gutters on the Avenue. Quite an expense was incurred in putting in the bank walls against the estate of Mrs. Fisher and the one opposite.

Water Street.

That part of the street leading from the railroad easterly, has been repaired and gravelled.

Winter Street.

The portion of this street from the Avenue to the Crosby school-yard, which has been a source of no little complaint (it being most of the year wet and muddy), caused by its

being so low and flat in the centre, and the multiplicity of shade trees (which the abutters object to having removed), has been raised and crowned with gravel, throwing the water off, and thus a portion of the difficulty has been removed. Some other portions of the street need regravelling.

There have been more or less repairs made upon many other streets, as will be perceived by the amount of gravel used. The gutters have been generally cleared, and are in fair condition for the winter.

Guide Boards.

There have been placed in position thirty-five boards, seventeen of which are at the entrance of private ways. With a few exceptions the requirements of law are fulfilled.

Railings.

Substantial railings on embankments have been put up on Academy, Broadway, and Forest Streets, and on the Avenue, near Park Avenue, a total distance of 830 feet in length, a part of which are two-railed, with iron posts.

Watering Streets.

The main avenue has been watered from the residence of Locke Brothers, to that of Mrs. Fisher, and Pleasant Street from the avenue to the residence of Geo. Hill. The number of days the cart has been used is seventy-five and three-fourths. On account of the frequent showers and rains, this season has been quite favorable. Could the abutters from the "Foot of the Rocks" to Alewife Brook, be induced to pay a portion of the expense of watering, and the town make an appropriation for the balance, we think the abutters

would soon see the benefit derived, and the town make a saving in gravel, which is now ground up by travel and blown away in dry seasons.

Culverts and Bridges.

Several culverts have been taken up, and cleared out, and some that were too small to receive the water, have been enlarged.

But slight repairs on wooden bridges have been necessary. The planks of the one on Medford Street, having become worn in the centre, were taken up, cut, and turned, bringing the worn portions on the outer edge. One-half the expense was borne by the town of Medford.

Concreting.

There being no especial appropriation for this purpose, very little has been done. Two crossings have been laid down: one at the junction of Park Avenue with Vine Street, and one at the junction of Park Avenue and Oakland Avenue. Some work has been performed for other parties, as will be shown by report of the Town Treasurer. It would be economy, we think, were several gutters concreted the ensuing year. There are sections at the Heights, which, if much longer delayed, will require a much larger expense, as they are constantly washing, and breaking away the shoulders of the streets.

Stone Crusher and Stone.

The crusher and engine will need some repairs before using. We have a sufficient amount of stone for crushing on hand, for the ensuing season, there being a large quantity at the banks and shed, piled in readiness for use; consequently there will be no necessity for purchasing.

Gravel.

We have opened, the past season, an excellent vein of blue gravel, which to all appearances *may* last for many years. A gutter has been formed, and a culvert put in, taking the surplus water from the pit, the loam removed from the top of the bank, so that gravel can be obtained, comparatively early in the spring.

Sidewalks.

There being no appropriation granted, no walks have been put down. Some portions of the walks need repairs. If funds were granted to lay sections of concrete in the worst places each year, a decided improvement might soon be made. Quite an amount of material obtained from the gutters, has been utilized in raising the low and uneven places, thus disposing of the wash, and making an easy and comfortable walk for pedestrians.

Tools.

Something of an outlay has been made this season for shovels, picks, screens, &c. Since the close of the season, they have all been put in thorough repair, and are in readiness for operation.

Teams.

We have four good horses, in excellent condition. The carts and harnesses being all in good repair, excepting that the carts need painting.

Almshouse.

At the commencement of our duties in the spring, we were under the necessity of procuring a person to take the

place of Mr. Samuel E. Kimball, who resigned, therefore we thought it best to advertise for proposals for the place. After receiving a large number, and carefully considering them all, we made choice of Mr. George W. Austin, and we would here say that thus far he has given full and perfect satisfaction in every department, both at the house and upon the highways. From his report to the Selectmen we gather the following items of interest.

Amount of appropriation,	$1,500 00
" " credit for board and products sold,	300 86
Total resources,	$1,800 86
There has been expended for supplies, furniture, repairs, &c., as per itemized report of Treasurer,	1,793 55
Leaving an unexpended balance of	$7 31
Making the apparent cost,	$1,492 69
Deducting from this for unpaid bills of 1877,	292 64
Would leave the actual cost of support of Superintendent's family, inmates and tramps, repairs, and (household furniture purchased),	$1,200 05
There was unexpended of the appropriation April 1,	894 72
Amount of credits from that date,	240 86
There has been paid for bills due from Jan. 1st to April 1st, including $38.48 for bills of 1877,	118 95

There are no unpaid bills due by this department known to us.

Whole number of inmates for the year, 6; whole number of inmates for nine months, 5; present number, 4; deaths, 1; discharged, 1.

Number of vagrants fed and lodged, not including those cared for at Police Station, 927; decrease in number of vagrants from 1877, 486; number of weeks of support of

inmates, 235; number of weeks of support of vagrants, 133 3-7; aggregate number of weeks of support, 368 3-7.

The general health of the inmates has been very good, the town physician having been required to make only six visits.

Furniture and Fixtures.

There has been expended for furniture, fixtures, &c., which were much needed, about $150.00, and greatly *improved* the furnishing of the house. No very great expense will need to be incurred for some time to come.

Repairs on Buildings.

Some slight repairs have been made on the house the past season. But very little will need to be done at present. As a matter of economy, we think a coat of paint should be put upon the stable and tramp building, the ensuing year; and we also would recommend the erecting of a shed for the storage of wagons, carts, &c., as now some have to remain unsheltered.

Street Lamps.

It will be remembered that at a meeting held April 16th it was voted to light such lamps as should be erected by the abutters on certain streets in the upper part of the town. There have been thus erected 40 lamps, which are lighted by the use of gasoline, and by contract with the Globe Gas Light Co., of Boston, at an expense of $18 per lamp per year. During the two months which they have been lighted, they have given very general satisfaction, furnishing a good light, yet not equal to gas. There are also 51 lamps lighted with gas at a cost of about $26 per lamp. This does not include cost of repairs. It was found that the appropriation would not allow the lighting and care of the lamps to be

done as heretofore; but by an arrangement with the Police, having the work done by them, we have been enabled to keep within the appropriation.

Appropriation,	$1,500 00
Expended,	1,464 19
Balance,	$35 81

Coal.

Adopting the usage of your former Board we have, acting with the School Committee, issued letters inviting proposals from a number of the prominent dealers for our usual supply. The lowest bid of $4.95 per ton being received from Mr. J. W. Peirce, the contract was therefore given to him and has been satisfactorily complied with.

Cemeteries.

As for several years past the care of the cemeteries has been under the charge of Mr. J. B. Hartwell. Following the plan adopted by the former Board, we have caused foliage plants and flowers to be set out in the grounds of the new cemetery to a limited extent.

Police.

Mr. John H. Hartwell was re-appointed Chief of Police, and Garrett Barry and P. J. Shean were appointed as assistants. The report of the Chief to the Selectmen shows the following items of interest.

The following table shows the number of arrests during the past year.

Whole number,	77	
Decrease from last year,	39	
Males,	68	
Females,	9	
		— 77

Drunkenness,	16
Vagrants,	3
Assault and battery,	18
Liquor nuisances,	6
Rape,	2
Disturbing the peace,	11
Assault on officer,	3
Malicious mischief,	2
Trespass,	5
Larceny,	2
Breaking and entering,	1
Other arrests,	8
Total,	77

In addition, five children have been found and returned to their homes, three to Cambridge and two to Boston, and one body drowned in Mystic Lake has been recovered.

Licenses.

The town not having given the Board any instructions in the matter, they thought it best to grant no licenses, feeling that this was all they had a legal right to do, leaving the matter where the law leaves it, in the hands and power of the citizens. The following is an extract of the law: "If two persons, of full age, and competent to testify," "make complaint under oath before a justice of the peace," "that they have reason to believe, and do believe, that any" "spirituous or intoxicating liquor is kept or deposited by a" "person named in the complaint, in a store, shop, ware-" "house, building, vehicle, or place, and intended for sale" "contrary to law, such justice, upon its appearing that" "there is probable cause to believe said complaint to be" "true, shall issue a warrant of search to any sheriff, chief"

"of police, or constable, commanding him to search the" "premises in which it is alleged such liquor is deposited," "and to seize such liquor, with the vessels in which it is" "contained."

And we would here say that the police have been instructed, and they have at all times been ready to prosecute all illegal sales of intoxicating liquors in town, when they have been furnished with the proof of such sales by reliable evidence.

Outside Poor.

Your Overseers have tried to distribute the funds at their disposal, in as economical, yet liberal a manner as the circumstances of each applicant demanded, trying to discriminate between the honest and deserving, and those whom we feared were not so. The following figures will show the result:

Appropriation in March,	$1,600 00
" " Sept.,	500 00
Credited from income poor widows' fund,	200 00
	$2,300 00
Expended,	2,242 01
Balance,	$57 99

Lawsuits.

During the summer we have been called upon to defend the town in a suit brought for damage caused by a collision with the old elm tree near the Cambridge line, the tree having since been removed, the accident having occurred in November of last year. There have been no suits commenced against the town, and to our knowledge, but one threatened during our administration, and that one amicably adjusted, excepting suits connected with the water-works.

Fire Department.

For information regarding this department, we refer you to the report of the Chief Engineer.

Water Scrip.

At the request of the Water Commissioners, Arlington Water Scrip has been issued to furnish funds to enable them to settle damages, &c., according to votes of the town. The same course has been pursued in disposing of the bonds as heretofore, that is, proposals have been issued to the leading bankers and brokers soliciting bids.

Total amount of Scrip sold,		$85,000 00
Jan. 24, Brewster, Basset & Co., $5,000, 6 per cent. Scrip at 110.03,	$5,501 50	
July 18, Charles A. Sweet & Co., $68,000, 5 per cent. Scrip at 101.57,	69,067 60	
Aug. 3, Commissioners of the Sinking Fund, $5,000, 5 per cent. Scrip at 101.57,	5,078 50	
Dec. 2, Brewster, Basset & Co., $7,000, 5 per cent. Scrip at 102.65,	7,185 50	
		$86,833 10
Amount of premiums received on sales,		$1,833 10

Conclusion.

In concluding our report we refer you to the Treasurer's Report for a detailed statement of receipts and expenditures, and beg leave to say that we think we have tried according to the best of our ability to administer the affairs of the

town in as judicious yet liberal a manner as under all the circumstances we were able to do, and keep within the appropriation in all departments. We leave our fellow citizens to judge whether or not we have been right in our endeavors.

Respectfully submitted,

HENRY MOTT,
JAMES DURGIN,
WILLIAM H. ALLEN,
} *Selectmen of Arlington.*

Respectfully submitted,

NATHAN ROBBINS,
DAVID P. GREEN,
WM. G. PECK,
JOHN P. WYMAN,
HENRY SWAN,
B. DELMONT LOCKE, *ex-officio*,

Trustees of Pratt Fund.

ARLINGTON, Dec. 31, 1878.

REPORT OF WATER COMMISSIONERS.

In making our annual report for 1878, we congratulate the town that we are able to show very nearly the exact financial condition of the Water Works. This has been impossible at any former time, on account of the large number of outstanding claims against the town. All bills have been paid up to the present time, and all claims for damages have been settled and paid excepting one, which we think has no foundation in justice, and which we hope the court will decide has none in law. The income from water rates varies but very little from that for 1877. The running expenses have been considerably less than in 1877, and we think that they may be still less for 1879. For all the details of income and expenditure we refer to the Treasurer's report which follows this. In January the suit of Oliver Warner *et als.*, vs. the town was settled by the payment of the round sum of $4,000. In the same month the taxes assessed by Lexington for 1876 and 1877, were paid under protest and a suit brought to recover them. This case has gone to the Supreme Court on an agreed statement of facts and will be argued in January, 1879. In February the preparation of the Great Meadows for a storage reservoir was completed and now, with little care, water can be stored there in sufficient quantity to supply the distributing reservoir and keep it full during the summer.

After the annual town meeting, we met and organized by choosing R. L. Hodgdon, President, and B. D. Locke, Clerk and Registrar. Sylvester Stickney was appointed Superin-

tendent. Subsequently George Hill resigned, and Warren Rawson, having been elected by the town, was sworn in to fill the vacancy.

There has been no extension of the street mains during the year. Gates have been put in at the junction of Maple and Pleasant streets, of Russell and Mystic streets, and of Summer and Brattle streets. A hydrant has been set on Fiske avenue. Wherever new gate or service boxes have been needed, cast-iron ones have been used instead of wooden. The greater durability of iron makes this a measure of economy, though the original cost of iron is a little more than that of wood. Fences have been built between the lands of the Water Works and those of Blodgett and of Winship.

The remaining Mill suits have all been settled on a basis of sixty-five per cent. of the award of the Commissioners. While sharing the almost if not quite universal opinion, that the sum paid in these cases was much in excess of what was justly due, still considering the technical legal advantages held by the claimants, we think the settlement a good one for the town. Mr. Eaton's case was finished before Commissioners, and he appealed to a jury and got a verdict of $1,381.50, a little more than half of the smallest sum for which he ever proposed to settle. Both suits of the Fiske heirs have been settled by paying $450. Reed's case has been tried, and the verdict of the jury was $3,279.71, less than 60 per cent. of what the award of the Commissioners would have amounted to. It has been left for the Supreme Court to decide who shall bear the costs in this case. We have paid them under the order of the court, taking a bond for their return, if the court decides that Reed shall pay them. The suit of Spalding came to trial, and was carried to the Supreme Court on exceptions, and will be argued in January, 1879. This is the only claim brought for damages now remaining unsettled, and this involves only

a small amount. The result in all these cases justifies the course pursued by the town in contesting them.

In the contract for building the Water Works, occurs the following: "The contractor agrees at his own expense, to keep all the foregoing works in repair for five years after completion." In 1875, Mr. Norman paid for all repairs which had been made up to that time. A bill has been sent to him for the repairs which have been done since that time, but he has not yet expressed a willingness to pay it. The Treasurer is now in correspondence with him on the subject.

The amount of Water Scrip issued during the year is $85,000, which, with $215,000 previously issued, makes $300,000, the full amount to which the town is limited. $220,000 of this bearing interest at 6 per cent., and $80,000 at 5 per cent., will make the annual interest to be paid $17,200. Assuming that the net income for 1879, which can be applied to the payment of interest, will be the same as for 1878, or about $8,200, the deficiency for which the town will have to provide will be $9,000.

Amount.	Rate.	Interest.
$220,000	6 per cent.	$13,200
80,000	5 " "	4,000
		$17,200
Deduct estimated net income,		8,200
Deficiency to be provided for,		$9,000

The present works are now in good repair, and are adequate for the supply of the present water takers. The supply of water which the town possesses is sufficient, if takers for domestic purposes can be had, to yield an income large enough to meet the interest on a larger debt than the present, but to provide for the storage of the water and for its distribution would require a considerable additional expenditure. This situation, now fairly before the town, we commend to its careful consideration.

Uses for which water is supplied as reported by the Registrar :—

Families	supplied,	339
Stores and shops	"	16
Private stables	"	64
Livery stables	"	2
Horse railroad stable	"	1
Steam railroad depot	"	1

Stock and tools on hand as reported by the Superintendent :—

60 feet 4-inch iron pipe, 1200 lbs.
2 lanterns.
1 street hydrant.
3 gate wrenches.
880 lbs. gate boxes.
5 service boxes.
7 ft. 4-inch cement-lined pipe.
14 ft. 6-inch cement-lined pipe.
7 ft. 8-inch cement-lined pipe.
25 lbs. manilla rope.
12 eight by four cast-iron branches, 206 lbs.
3 1-2 ft. 12-inch cement-lined pipe.

30 lbs. white lead.
1 four-inch gate.
11 rubber gaskets.
6 square gate caps.
1 Gem meter.
7 hydrant valves and plates.
1 hydrant foot.
1 hydrant frost case.
2 two and one-half inch hydrant nipples.
3 hydrant rods.
1 centre rod.
7 ft. 4-inch second-hand cement-lined pipe.
46 lbs. caulking rope.
3 hydrant caps.
2 shovels.
3 picks.
1 hoe.
1 rake.
56 ft. 6-inch cement drain pipe.
5 ft. 6-inch branches drain pipe.
5 ft. 4-inch branches drain pipe.
2 wheelbarrows.

All of which is respectfully submitted.

Per order of the Water Commissioners.

R. L. HODGDON, *President.*

ARLINGTON, Dec. 31, 1878.

WATER WORKS.—TREASURER'S REPORT.

For each additional watet-closet,	3 00
For hopper water-closets, special rates will be made.	
Where bath-tubs or water-closets are used by more than one family, for each family,	4 00
Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both; *provided*, that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00

192455

BOARDING HOUSES.

For the first faucet,	$10 00
Each additional faucet,	2 00
Water-closet or bath-tub, when used by boarders,	10 00
Each additional bath-tub or water-closet,	3 00

STORES, OFFICES, WAREHOUSES, ETC., NOT INCLUDING MANUFACTORIES OR WORKSHOPS.

First faucet,	$5 00
When two or more tenants are supplied from the same faucet, each,	4 00
Water-closet used by occupants of one tenement only,	5 00
When used by occupants of more than one tenement, for each tenant,	4 00
For each additional faucet or water-closet, half of above rates will be charged.	

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For market, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water,	$5 to $25

HOTELS.

For each bed for boarders and lodgers,	$3 00
For each bath-tub in a hotel,	10 00
For each water-closet in a hotel,	10 00

PUBLIC BATHS.

For one tub in public bath-house,	$10 00
For each additional bath-tub,	5 00
For one water-closet in public bath-house,	10 00
For each additional water-closet,	3 00

STABLES.

Private Stables.	For the first horse,	5 00
"	For each additional horse,	4 00
"	For one cow,	2 00
"	For each additional cow,	1 00
Livery, club and boarding stables. For each horse,		3 00
Car and omnibus stables. For each horse,		2 00
Truck and cart stables. For each horse,		2 00

Provided, that in no case shall any stable be charged less than $5.

The rates for stables include water for washing carriages without hose.

HOSE.

For hose of not over three-eighths inch orifice, used for washing windows, sprinkling streets (and the use of the same shall be limited to one hour per day), not less than	3 00

STEAM BOILERS.

For each boiler in use not over twelve hours a day, for each horse power,	6 00

BUILDING PURPOSES.

For each cask of lime or cement, 6 cents.

HYDRANTS.

Hydrants set by the town at the rate of $28 each, allowing one hydrant to each 200 inhabitants.

SECT. 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners; and the rates fixed in the foregoing tariff may be varied by the Water Commissioners, whenever in particular cases, in their judgment, the interests of the town shall require.

AUDITORS' REPORT.

The undersigned hereby certify that they have audited the books and accounts of B. DELMONT LOCKE, as Treasurer and Collector, for the year 1878; also as Treasurer for the Arlington Water Works for the same year, and find the same correct, with vouchers for all the payments, and the balance of cash to be as stated by him.

ABEL R. PROCTOR,
REUBEN W. HOPKINS, } *Auditors.*

ARLINGTON, Jan. 28, 1879.

ANNUAL REPORT

OF THE

Chief Engineer of the Arlington Fire Department.

To the Selectmen of Arlington:

GENTLEMEN,—I herewith submit my first annual report of the Fire Department, also offering recommendations for the ensuing year.

FIRES AND ALARMS.

The Department has answered to four alarms in town, and three out of town, as follows: March 27, fire at the house of John Redman, Arlington avenue. Extinguished by the neighbors and members of Hose 2. Damage slight. Caused by children playing with matches. May 11, the unoccupied house of Andrew King, on Summer street, at which the entire Department did good service. Damage $411, insured $710; cause unknown. August 7, stable of Wm. Burns, Dudley street, at which the entire Department was called out. Loss $175, insured $135; cause unknown. December 17, stable of Thomas Peirce, at Arlington Heights. Loss $400, no insurance; cause unknown. December 17,

stable of Arlington Land Co., at Arlington Heights. Loss $300, no insurance; cause, sparks from Peirce's barn. The citizens can certainly congratulate themselves upon their immunity from fires in the past year, "but in time of peace prepare for war."

MEMBERSHIP.

The Department consists of thirty-six members, comprising a Chief, and four Assistant Engineers; two Hose companies of twelve men each, and two substitutes to each company, who serve without pay, and are elected members when a vacancy occurs; one Hook and Ladder company of seven men and four substitutes. The Department, as far as membership is concerned, is in good working order. We have been very particular in regard to the persons we have approved to become members, and I must say, that our Fire Department consists of some as good firemen as there are in the State,— men who will not shrink from doing their duty, at the risk of their lives.

HOSE.

The Hose belonging to the Department is in very poor condition. We have only eight hundred and fifty feet that we can rely on. Some of our leather hose will not stand the pressure at the lowest hydrant. If we should have a fire that would require a Steam Fire Engine, our leather hose would not be worth picking up. I would recommend the purchase of one thousand feet of new hose, and from my experience, I am satisfied that cotton rubber-lined hose is the best for this town, and I hope the citizens will look into this matter of hose, and will also take more interest in the Fire Department.

FURTHER FACILITIES.

I would call your attention to the unprotected condition of the property at the Heights. If any of the buildings should take fire, they must burn. If the town should purchase a steamer, it would not be of any use, for there is not water enough to supply it. I can think of nothing better than a Chemical Engine; they are quickly put to work, and will do good service.

DEPARTMENT BUILDINGS.

The house occupied by Hose No. 2 is in very poor condition; in fact it is not a fit place to keep hose or any other part of the apparatus; it is impossible to keep the hose dry, and I hope the citizens in that part of the town, will take interest enough in this matter, to examine the building, and satisfy themselves. We have not expended any money for repairs on this building. Hose house No. 3 needs to be repaired. We have had the windows and doors painted, of which it was sadly in need; also some slating done on the roof.

APPROPRIATION.

I would recommend an appropriation, to meet expenses for the ensuing year, of two thousand five hundred dollars.

PERSONAL RECOGNITION.

In closing, I have to express my thanks to my assistants, and the members of the Fire Department, for the able manner in which they have performed their duty. To the Police, I desire to express my thanks, for the prompt manner in giving alarms and other services. To the Superinten-

dent of streets, for promptness in furnishing horses. To Chief Symms of Winchester, Chief Hopkins of Somerville, and Chief Raymond of Cambridge, for the generous loan of their apparatus in times of need.

Respectfully submitted,

CHARLES GOTT,

Chief Engineer.

REPORT

OF THE

TRUSTEES OF THE PUBLIC LIBRARY.

The whole number of books in the library is, 6,135.

The number of books given out during the year 1878 is, 25,221.

Number of volumes not returned, 9.

Amount of fines paid to the Town Treasurer, $60.

The number of volumes issued during the past year, as compared with former years, shows an increasing interest in the Public Library.

We believe that this institution should be generously supported by the town. In no other way can general knowledge be so widely diffused among the inhabitants of our town, than by placing within the reach of all, good books selected from the current literature of the day. The Trustees wish that all having children under their care, would particularly attend to the books or periodical literature which now falls into their hands.

By a careful direction to a healthful course of reading, a child may be saved from that love for the sensational and trashy novel, which serves only to enfeeble and dissipate the powers of the mind.

There are papers and novelettes now issued and scattered broadcast among young people, which exercise only a pernicious influence. Parents should turn the minds of their children from this course of reading, to the novels, biographies and histories in our Public Library. There our boys and girls can not only be interested, but can gather a healthful course of instruction.

We have introduced four of the leading magazines in English and American periodical literature into the library for the present year. These are to be taken and kept from the library for a period of three days.

We recommend that the town appropriate the amount received from the dog tax, in addition to the amount received from the Pratt Fund, already generously bestowed, for the support of the library for the ensuing year.

JOHN H. HARDY,
Chairman of the Trustees.

SCHOOL COMMITTEE'S REPORT.

To the Town of Arlington:—

The School Committee submit their annual report. They limit themselves to a brief statement of the condition of the several schools, and to a notice of such prominent events as have occurred during the year.

Immediately following the annual March meeting of the town the salaries of the teachers were reduced to conform to the reduction of the appropriation.

The Locke School-house at the Heights was dedicated on the 20th of March. The ceremony of surrendering the house to the town was performed by the delivery of the key by Mr. Kern, the Chairman of the Building Committee, to the Chairman of the Board of Selectmen and by him to the Chairman of the School Committee.

Hon. Mr. Dickinson, the Secretary of the Board of Education, was present by invitation, and gave a most practical and instructive address. Hon. Oliver Warner also addressed the audience to their great pleasure and profit.

The committee ascertained that on the 1st of May there were in the town eight hundred and one children between the ages of five and fifteen.

The committee in recognition of the long and valuable services of Josiah Crosby, Esq., as a member of the School Committee, and as a mark of respect, passed a resolution to the effect that the school-house in the east part of the town should hereafter be known as the "Crosby School-house."

It was ordered that the metric system of weights and measures be taught in our schools and the necessary apparatus was purchased.

As a matter of economy the Schwamb building, which had been occupied by the Cutter Primary, was given up, and the school removed to the school-house, while the Cutter Grammar (5th and 6th classes) was removed to the vacant room in the Locke School-house. At the same time the line dividing the Cutter and Russell districts was changed by carrying it westerly from Schouler court to Highland avenue.

In obedience to a notice from the Massachusetts State Detective Force, the outside doors at the foot of the stairway of the Crosby School-house were made to open outwardly.

During the year there have been resignations and appointments of teachers. At the close of the spring term Miss Josie F. Richardson who had taught the Cutter Primary from its beginning greatly to the satisfaction of all interested in the school, tendered her resignation. Miss L. DeBlois was appointed to the vacancy.

Near the end of the long vacation, Mr. C. W. Stickney, master of the Cotting High School, who had been appointed to take charge of a newly endowed academy in the town of Harvard, withdrew from his situation here. Mr. Stickney during the two years of his mastership gave evidence of superior scholarship and ability as a teacher, thus establishing a reputation which secured for him a more lucrative position. Mr. George F. Chace of the Taunton High School was appointed his successor.

At the close of the fall term Mr. Edward O. Grover, who for thirteen years had been master of the Russell Grammar School, notified the committee that he had been elected to the mastership of the Shepard Grammar School in the City of Cambridge, and that his long service in this town was to cease. Mr. Grover occupies a high rank among grammar

masters, and at several times has received offers of employment as a teacher elsewhere. He is thoroughly versed in the theory and methods of his profession, and has rendered valuable aid in arranging the grades and course of study in our plan of schools. His success as a teacher has been well attested by the thorough instruction evinced by the pupils who have passed under his charge. The friends of public education part with him with regret. Mr. S. J. Dunbar, who has taught the Cutter Grammar School with diligence, ability and success, was appointed to the vacancy. Mr. Charles M. Clay was then appointed to the Cutter School.

Finally, Miss Kate I. Bowers, at the same time, after ten years' service in the Crosby Primary, resigned. In addition to other gifts, Miss Bowers, by a fortunate temperament, was enabled to exert the happiest influence over the young children in her school. Miss Annie A. Snelling was appointed as her successor.

The system of schools remains unchanged. Their condi tion as a whole is favorable. At all events there is no special defect to which the attention of the town need be called.

The schools need the sympathy and support of the community. Outside dissatisfaction, well or ill-founded, freely expressed, tells upon the order and discipline of the schools. The committee commend the wants of the public schools, to the careful, deliberate and intelligent judgment and action of the town.

WM. E. PARMENTER, *Chairman*,
For the School Committee.

Cotting High School.

Mr. Chace assumed the mastership of the school in September. Miss Williams and Miss Simmons have continued as assistants from last year.

The graduating class consisted of twenty members, by far the largest class since the foundation of the school.

One young man, a graduate, entered at Tufts College.

Twenty-eight candidates were admitted to the Junior class on examination.

The school numbers sixty members.

WM. E. PARMENTER,
For the Sub-Committee.

Russell Grammar School.

(*First, Second and Third Grades.*)

These schools have maintained their high rank under the careful management of Mr. Grover, Miss Hobart and Miss Gould.

The attendance has not been so large as it should be, but the average is a little better than last year. Parents should realize that it is of the utmost importance that children be regular in their attendance at school, especially in the schools of higher grades.

Good progress has been made as is shown by the general excellence of the tests.

Apparatus and charts have been introduced for the purpose of illustrating and teaching the metric system, which will undoubtedly be in practical use when the boys of these schools are ready to enter business life.

The committee, generally, felt that it was a misfortune to lose Mr. Grover's valuable services, but they congratulate themselves that so faithful and experienced a teacher as Mr. Dunbar is at the head of the Russell Schools.

In a year's trial, Miss Gould has proved herself to be an intelligent teacher, a good disciplinarian and is regarded as a worthy successor to Miss Turner.

CHAS. E. GOODWIN,
For the Sub-Committee.

Russell Grammar School.

(*Fourth, Fifth and Sixth Grades.*)

The classes in these grades are very large, except the sixth which is divided. The fifth has sixty-two scholars, and to accommodate them the committee were obliged to re-seat the room and add one row more of chairs, also six portable ones. The fourth class has fifty-one desks, all of which are occupied.

When we consider the number of the sixth class (87) and the crowded condition of the fourth and fifth, it is apparent that a new school must be created in the Russell district at the beginning of the next school year.

The sixth class (divided) is taught by Miss Warren and Mrs. Hill; the fifth by Miss Flanders, and although the class is very large, she seems to manage it with ease; good discipline is maintained and interest manifested by the pupils.

Miss Pillsbury has returned to the charge of the fourth class, and her presence and tact have restored the class to its former rank.

J. S. CROSBY,
For the Sub-Committee.

Russell Primary Schools.

The brief notice which these schools ordinarily receive in the report, is all too little to do justice to the excellent management of Misses Schouler, Packard and Fessenden, in their respective classes. The record of one year in these schools is that of every year, showing kindness, patience and tact in the direction of the youngest minds in the first

degrees of knowledge. The usual winter sickness has prevailed among the children, of course occasioning absence from school.

WM. E. PARMENTER,
For the Sub-Committee.

East District.

This school has, during the last year, received a new name, that of the CROSBY SCHOOL. This school is divided into two classes. The intermediate has continued under the care of Miss M. F. Scanlan, who has shown herself still faithful and efficient.

The primary department was under the care of Miss K. I. Bowers, until the beginning of the new year, when Miss Annie A. Snelling was appointed to succeed her. This school is poorly attended in the severe season, the pupils being small, find it difficult to attend in winter. This fact, perhaps, may raise the question whether our school terms and vacations are arranged for the best results in the primary schools.

On the whole, perhaps the success of this school will bear a favorable comparison with others of the same grade in other parts of the town.

JOHN P. WYMAN,
For the Sub-Committee.

Cutter Schools.

There have been several changes in these schools during the year. On the resignation of Miss Richardson, at the close of the winter term, the "Schwamb building" was given up, and the scholars were sent to the Cutter schoolhouse. The classes were assigned to Miss DeBlois, a former teacher of this grade. To make room for this school, it was

found necessary to remove the fifth and sixth grades, taught by Miss Gibbs, to the Locke school-house, at the Heights.

After a faithful and successful service of several years, Mr. Dunbar was transferred to the Russell School, and Mr. Clay, of Brookfield, appointed as his successor.

The other schools, under the same teachers as last year, Mrs. Thompson and Miss Locke, are doing as well as can be expected, considering the amount of absenteeism.

The schools in this district have suffered considerably from the repeated absence of scholars who have been detained at home, in many instances for trivial causes. A continuation of this must necessarily lower the standard for promotion, and it is hoped that during the coming year, there will be an improvement in this direction.

HENRY SWAN,
For the Sub-Committee.

Locke Primary Schools.

The two primary schools occupying the lower half of the Locke school-house are doing well, under the efficient care of Miss L. M. Farrington and Miss S. F. Gibbs, who have used their respective rooms, the former about ten months, the latter somewhat less.

During the first term of Miss Gibbs' school considerable complaint was made of the distance some of the children were compelled to travel, and the average attendance was much lessened, but the committee were unable to make any change for the better, and the difficulty complained of seems now to have been generally overcome, and the school at the present time shows an average attendance of 46 out of 53 scholars.

The committee were obliged to crowd this school-room with more desks than it was intended to accommodate, and consequently, perhaps the means of ventilation have been complained of.

The attendance in Miss Farrington's school has been very much decreased during the current term, by sickness and dread of sickness; the committee hope, however, that parents will consider how difficult it is for their children to make satisfactory progress in their studies, and pass creditable examinations, unless they are constant attendants, and will not allow them to absent themselves except for urgent reasons.

FRANCIS V. B. KERN,
For the Sub-Committee.

SELECTMEN'S REPORT.

In accordance with the usual custom, the Selectmen herewith submit to you their Annual Report of the financial year, ending December 31, 1879 :

Highways.

Appropriation,		$7,000 00
Brick and concrete walks,		500 00
		$7,500 00
Expended,	$8,581 04	
Less amount received for concreting, labor, subscription for watering streets, &c.,	1,700 82	
		6,880 22
Balance unexpended,		$619 78

For a detailed report of the Highway Department, we beg leave to refer to the Report of the Superintendent of Streets to the Selectmen, from which we make the following extracts :

Total number loads of gravel used, 5,644; loads of stone, 1,820; making over 2,500 tons of crushed stone used.

Arlington Av.,	1,934 loads	Lake Street,	66 loads
Appleton Street,	26 "	Mystic "	143 "
Bow "	39 "	Medford "	494 "
Brattle "	33 "	Oakland Av.,	175 "
Broadway,	11 "	Park "	216 "
Claremont Av.,	1,699 "	Pine Street,	36 "
Chestnut Street,	40 "	River "	3 "
Decatur "	164 "	Summer "	34 "
Eastern Av.,	10 "	Spring "	226 "
Forest Street,	20 "	Winter "	19 "
Grove "	14 "	Walnut "	12 "
Lowell "	1,608 "	Wollaston Av.,	442 "
Total,			7,464 loads

In addition, about 500 loads of material have been used upon sidewalks.

Arlington Avenue.

The first work of any magnitude, as was recommended in my last report, was on that portion of the avenue from the old brick School-house, over the hill at the foot of the Rocks, a distance of 2,000 feet.

The hill was excavated a depth of three feet at the highest point, which has left a very easy grade. The whole was macadamized with crushed stone, coated with blue gravel, and is now one of the best portions of the avenue. The gravel, about 1,600 loads, taken from the hill, was utilized upon Lowell Street, thereby much improving that street; the whole being done at less than the estimated cost of excavating and macadamizing that part of the avenue.

Hollows or depressions have been repaired during the season by filling with fine crushed stone. I find this experiment has proved a success, inasmuch as the foundation of the street has been left intact, and the expense of picking has been saved. It was thought that stone thus used would not remain but work out by the action of the wheels; but I find that by putting it on when the street is wet, with a very little fine screened gravel, it treads and becomes one solid portion of the macadamized roadbed. I would suggest, as in my last report, that that part of the avenue from Alewife Brook to a point near the residence of H. D. Durgin, be scraped and crowned with stone and gravel. Also the section from Pattee's crossing to Water Street, which is almost always wet and muddy, and has become very rough and uneven, demands early attention. Nothing has been done upon the section near Lexington line, except to fill the ruts with cracked stone. I recommend that a part or the whole be macadamized the ensuing year, and you will thereby secure a macadamized street, the entire length of the town.

Appleton Street.

The brush has been cut, gutters cleared, and some gravel used. Repairs are needed on the upper portion, near Lexington.

Broadway.

No general repairs have been made this year upon this street. The portion from Warren Street to Alewife Brook needs early attention. In fact, something will soon need to be done the entire length from Webster Street.

Bow Street.

The great amount of surface water coming from the avenue into this street has caused a great deal of trouble to

the residents and the travelling public, by its overflowing and freezing in winter, at times rendering it almost impassable. A culvert and water grate have been put in near the house of A. W. Isle, carrying the water through the land of Elbridge Farmer to the stream in the rear. This will, I think, obviate the difficulty.

Claremont Avenue.

This street, recently accepted by the town, has been placed in good condition. The loam was removed, the hill near Wollaston Avenue excavated, and the entire length at a width of 25 feet, crowned with blue gravel. A portion near Florence Avenue, which was very wet and springy, was filled to a depth of 15 inches with field and cobble stones. Although the material for this, and two other streets, of which mention will be made hereafter, had to be hauled quite a distance, and up a very steep grade, the work has been accomplished for something less than the original estimate.

Chestnut Street.

This street has been lightly coated with gravel, the gutters cleared, and is in a very good condition.

Decatur Street.

This street, although having been sometime accepted, has never been fully completed. The section near River Street, has this year been located and graded. A few loads of gravel are needed near North Union Street, which will place it in fair condition.

Lowell Street.

About half the length of this street has been crowned, and gravelled. The material used came from the hill, ex-

cavated on the main avenue, consequently the expense was not great. The remaining part of the street very much needs repair. That portion near the reservoir being very flat and wet, caused by numerous springs, should be repaired principally with stone.

Medford Street.

A section of this street, from Arlington Avenue to the house of Chas. Gott, has been crowned with from 8 to 10 inches of crushed stone and 2 inches of screened gravel, thoroughly rolled, which now makes a very even, smooth road. The remainder is in a rough, uneven condition, and another section, if not the whole, should be repaired the ensuing season.

Oakland Avenue

Recently accepted as a town way, has been gravelled and put in good condition.

Park Avenue.

A portion of this avenue has been regravelled in the centre, and is now in a very good condition. The material used was furnished by Dr. Dio Lewis, and, being in the vicinity of the place where needed, the expense was comparatively small.

Winter Street

Is quite rough and uneven, and some portions, flat and muddy, need repair. There being considerable heavy teaming through this street, it should be repaired principally with stone.

Wollaston Avenue

Another street recently accepted by the town, has been put in good condition by crowning with stone and gravel.

Guide Boards.

No new boards have been erected this year. Those in position are generally in good condition. A few will be needed to fulfil the requirements of law.

Watering Streets.

In addition to the former route, a subscription was taken on the upper portion of the avenue, and the route extended to the foot of the Rocks, and easterly, to the residence of Mrs. Butterfield, which necessitated erecting three additional stand-pipes, also the procuring of another watering-cart. Not being certain of the continuance of the experiment another year, the purchase of a second cart was not warranted, and one was hired for the season.

Culverts and Bridges.

No repairs have been made on bridges. The bridge on Medford Street needs examination the coming season. Several culverts have been taken up and repaired, and two new ones put in.

Stone Crusher and Stone.

The Engine and Crusher have been put in thorough repair. There is a large amount of stone piled in the yard and shed, ready for crushing, nearly, if not quite enough, for the ensuing season without purchasing.

Concreting.

Concreting has been done in front of Town Hall, and the residences of Mrs. Thayer, Rufus Merrill, Rev. M. Harkins and Chas. Gott; one-half expense being paid by the abutters, the other half from the appropriation for sidewalks. Considerable has been done for individuals, as will be seen in the Treasurer's Report. Sections of concrete gutters have been put in Park Avenue, Medford and Mystic Streets. More are needed on Park Avenue and on Mystic Street from Arlington Avenue to the foot of the hill near the house of J. H. Hartwell. Some of the sidewalks on Arlington Avenue will soon need repairs.

A few more foot crossings would be very convenient.

Gutters.

The gutters have been generally cleared, and are in readiness for winter. The gravel taken from the gutters has been d upon the sidewalks, and the loam sold.

Sidewalks

Have been built and repaired on Park Avenue, Broadway, Claremont Avenue, Arlington Avenue, Medford, Mystic, Appleton, Chestnut and Warren Streets, and including the concrete walks heretofore mentioned, at an expense of $336.80, leaving an unexpended balance of the appropriation of $161.20.

Tools.

The tools have been kept up to the full value of last year and are all in repair, ready for use in the spring.

Teams.

The horses are the same as last year, and are in good condition. The carts have been painted, and with the harnesses, are in good repair.

Almshouse.

The Almshouse has been under the care of Mr. George W. Austin, with his wife as Matron, and we would here say that everything in and about the premises has been kept in excellent order and condition. From Mr. Austin's Report we make the following extracts:

Appropriation,		$1,500 00
Expended,	$1,988 27	
Less received for board and products sold,	500 87	
		1,487 40
Balance unexpended,		$12 60

Whole number of inmates for the year, 8. Deaths, 1. Discharged, 2. Present number, 5.

Number of vagrants fed and lodged, not including those cared for at the Police Station, 641.

The furniture and fixtures of the house have been kept up fully equal to the condition of last year. As was recommended, an addition has been made to the stable for the housing of carts and wagons, with a general storeroom overhead, at an expense of $250.80. The stable and sheds have been painted, and are now in good condition.

An improvement has been made in the drainage of the house and stable, by the putting in of new drains, which was considered necessary in a sanitary point.

Street Lamps.

There are 52 lamps lighted with gas, one having been erected within the year on Winter Street. The cost per lamp has been about $20.10. There are also 45 lamps lighted with gasoline, 5 having been erected on Lake Street. The cost of lighting with gasoline has been $18 per lamp; this does not include repairs. All the lamps and posts are now in thorough repair, having been painted and glazed where needed. Many of the stopcocks having become worn, it was thought best to replace them all with new ones of another pattern, which has been done. The gas lamps have been lighted and cared for by two of the Police.

Appropriation,	$2,100 00
Expended,	1,961 38
Balance unexpended,	$138 62

Coal.

Letters were issued inviting proposals for furnishing the supply needed for the town including the Schools, and the contract was given to Mr. J. W. Peirce for $4.35 per ton, and has been satisfactorily carried out.

Cemeteries.

The cemeteries have been under the care of Mr. John B. Hartwell, and foliage plants and flowers have been set in two or more beds, under the direction of Mr. Dinsmore.

Appropriation,	$300 00
Expended,	261 90
Balance unexpended,	$38 10

Police.

The Selectmen appointed as Police, Mr. John H. Hartwell as Chief; Mr. P. J. Shean and Mr. G. Barry as assistants.

Appropriation,	$1,600 00
Expended,	1,595 75
Balance unexpended,	$4 25

From the Report of the Chief we make the following extracts:

Whole number of arrests during the year,	108	
Increase over last year,	31	
Males,	93	
Females,	15	
	—	108
Drunkenness,	19	
Vagrants,	3	
Assault and Battery,	30	
Disturbing the peace,	14	
Insane,	2	
Breaking and Entering,	3	
Cruelty to Animals,	2	
Assault on Officer,	2	
Malicious Mischief,	10	
Trespass,	4	
Unlicensed Dogs,	6	
Larceny,	3	
Truants,	2	
Embezzlement,	1	
Obtaining Money under False Pretences,	1	
Other Arrests,	6	
Total,		108

Four children have been found and returned home; two to Boston, and one each to Medford and Cambridge. Twenty-nine tramps have been lodged in the Station House in addition to those sent to the Almshouse.

Licenses.

No licenses have been granted for the sale of intoxicating liquors in town, excepting an Apothecary's license, to Mr. O. W. Whittemore.

Outside Poor.

Appropriation,	$2,300 00
Credited from Income of Poor Widow's Fund,	325 00
	$2,625 00
Expended,	2,616 75
Balance unexpended,	$8 25

Fire Department.

The Report of the Chief Engineer to which we refer you shows the condition of the Department.

Appropriation in March,		$1,800 00
" " November,		200 00
Expended,	$1,895 19	

Conclusion.

In concluding our Report we refer you to the Treasurer's Report, for a detailed statement of receipts and expendi-

tures, feeling that we have tried to act for the best interests of the town, and have kept within the appropriations in our expenditures in all departments, all known bills having been paid, and we leave it to you, fellow citizens, to judge whether or not we have administered the affairs of the town in a judicious manner.

Respectfully submitted,

HENRY MOTT,
WILLIAM H. ALLEN,
JAS. A. BAILEY,
Selectmen of Arlington.

DAVID P. GREEN,
HENRY SWAN,
B. DELMONT LOCKE, *ex-officio*,

Trustees of Pratt Fund.

ARLINGTON, Dec. 30, 1879.

REPORT OF WATER COMMISSIONERS.

The Annual Report of the Board of Water Commissioners for the year ending Dec. 31, 1879, is herewith submitted. The Board was organized by the choice of Henry Mott, President, and B. Delmont Locke, Clerk and Registrar. Sylvester Stickney was appointed Superintendent. We have had a permanent sluice-way made at the outlet of the Great Meadows, built of stone laid in cement, so that we think we can retain all the water upon the meadows until such time as it shall be needed in the reservoir; we have no doubt that by this means we shall have a large supply of water, but we have found that the present filter is not large enough to supply all the water needed for all purposes, so that the water had to be let into the main pipe for about 25 days, direct from the reservoir, consequently it was not so good; this we think can be remedied. We have had the grass and bushes cleaned out from the rip-rap in the reservoir and for a number of feet around, so that it is now in a good and clean condition. There has been an extension of the main pipe in Chestnut Street from Medford Street; 425 feet of 4-inch cast-iron pipe has been laid, and one 4-inch gate placed in the same.

Also in Academy Street, 432 feet of 4-inch pipe has been laid to the line at the upper end of the street, and one 4-inch gate, and one hydrant placed in the same. One hydrant on Medford Street has been replaced. There have also been 20 service pipes put in for family use and irrigation. The con-

dition of the main pipe in certain localities is such as to call for almost constant repairs, and we think the day is not far distant when it will be necessary to relay certain portions of the same. We have endeavored to keep the works in as good order as possible, under the circumstances, and at the present time they are in fair condition. The income from water rates has been more than last year, and the running expenses have been increased, for a detailed statement of which, we refer you to the Treasurer's Report annexed to this.

The Lexington Tax case, which was referred to the Supreme Court, has been decided, but as the whole question was not settled satisfactorily to both parties, it has again been referred to the Court.

The case of Spalding which was referred to the same court, has been decided in favor of the town. There have been two claims made for damage by flowage of land, which have not yet been settled.

We would recommend the building of a suitable fence to enclose the land on Lowell Street adjoining the reservoir, to keep out animals.

The Treasurer has settled in full with Mr. Norman, the contractor, for repairs of main pipe, chargeable to him under his guaranty.

Uses for which water is supplied as reported by the Registrar:—

Families	supplied,	346
Stores and shops	"	16
Private stables	"	64
Livery stables	"	2
Horse railroad stable	"	1
Steam railroad depot	"	1
Hand hose	"	135
Hotels	"	3

Churches and societies supplied,		7
Town House	"	1
School-houses	"	3
Hose-houses	"	2
Private Fountains	"	2
Irrigation	"	43
Cemetery	"	1
Savings Bank building	"	1
Stone crusher	"	1
Hydrants	"	98

Stock and tools on hand as reported by the Superintendent:—

932 lbs. cast-iron gate boxes.
23 ft. 4-inch iron pipe, 460 lbs.
1 second-hand street hydrant.

ARLINGTON, Dec. 31, 1879.

B. DELMONT LOCKE, *Treasurer.*

Sections 15 and 16 of Rules of Water Works.

SECT. 15. The following rates shall be charged annually for the use of water, namely :—

DWELLING HOUSES.

Occupied by one family, for the first faucet,	$5 00
For each additional faucet to be used by the same family,	2 00
Where a house is occupied by more than one family, and less than four, one faucet only being used for all, for each family,	4 00
Where a house is occupied by four or more families, and but one faucet is used by all, for each family,	3 50
Where a house is occupied by more than one family, the highest rates will be charged for each family having the water carried into their part of the house.	
For the first bath-tub,	5 00
For each additional bath-tub,	3 00
For the first water-closet,	5 00
For each additional water-closet,	3 00
For hopper water-closets, special rates will be made.	
Where bath-tubs or water closets are used by more than one family, for each family,	4 00
Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both; *provided*, that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00

BOARDING HOUSES.

For the first faucet,	$10 00
Each additional faucet,	2 00
Water-closet or bath-tub, when used by boarders,	10 00
Each additional bath-tub or water-closet,	3 00

STORES, OFFICES, WAREHOUSES, ETC., NOT INCLUDING MANUFACTORIES OR WORKSHOPS.

First faucet,	$5 00
When two or more tenants are supplied from the same faucet, each,	4 00
Water-closet used by occupants of one tenement only,	5 00
When used by occupants of more than one tenement, for each tenant,	4 00
For each additional faucet or water-closet, half of above rates will be charged.	

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water,	$5 to $25

HOTELS.

For each bed for boarders and lodgers,	$3 00
For each bath-tub in a hotel,	10 00
For each water-closet in a hotel,	10 00

PUBLIC BATHS.

For one tub in public bath-house,	$10 00
For each additional bath-tub,	5 00
For one water-closet in public bath-house,	10 00
For each additional water-closet,	3 00

STABLES.

Private Stables.	For the first horse,	5 00
"	For each additional horse,	4 00
"	For one cow,	2 00
"	For each additional cow,	1 00
Livery, club and boarding stables. For each horse,		3 00
Car and Omnibus stables. For each horse,		2 00
Truck and cart stables. For each horse,		2 00

Provided, that in no case shall any stable be charged less than $5.

The rates for stables include water for washing carriages without hose.

HOSE.

For hose of not over three-eighths inch orifice, used for washing windows, sprinkling streets (and the use of the same shall be limited to one hour per day), not less than	3 00

STEAM BOILERS.

For each boiler in use not over twelve hours a day, for each horse power,	6 00

BUILDING PURPOSES.

For each cask of lime or cement, 6 cents.

HYDRANTS.

Hydrants set by the town at the rate of $28 each, allowing one hydrant to each 200 inhabitants.

SECT. 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners; and the rates fixed in the foregoing tariff may be varied by the Water Commissioners, whenever in particular cases, in their judgment, the interests of the town shall require.

AUDITORS' REPORT.

The undersigned hereby certify that they have audited the books and accounts of B. DELMONT LOCKE, as Treasurer and Collector, for the year 1879; also as Treasurer for the Arlington Water Works for the same year, and find the same correct, with vouchers for all the payments, and the balance of cash to be as stated by him.

ABEL R. PROCTOR,
REUBEN W. HOPKINS, } *Auditors.*

ARLINGTON, Jan. 29, 1880.

ANNUAL REPORT

OF THE

Chief Engineer of the Arlington Fire Department.

To the Selectmen of Arlington:

GENTLEMEN—I herewith submit my Second Annual Report of the Fire Department of this town.

FIRES AND ALARMS.

The department has been called out eleven times during the past year. For six fires in town, three out of town and two false alarms.

The fires in town were as follows: April 24th, house of H. T. Elder, on Crescent Hill. Loss $3,000. Insurance $2,200. Cause of fire unknown.

April 27th, barn of John P. Squire, on Lake Street. The department performed good service at this fire in saving the house connected with the barn. Loss $2,500, no insurance. Cause of fire unknown.

May 25th, house of F. E. Fowle, at the junction of Arlington Avenue and Broadway. The prompt response of the department prevented a serious conflagration. Loss $200. Insurance $2,800. Miss Haley, who occupied the store, suffered a loss of $250, on which there was no insurance. Cause of fire unknown.

Aug. 15th, barn of Wm. H. Richardson, on Brattle Street, to which Hose 2 promptly responded, and did good service in saving adjoining buildings. Loss $200. No insurance. Cause of fire unknown.

Aug. 20th, building belonging to the Estate of Albert Winn, Jr., situated on Arlington Avenue, and occupied by F. A. Fessenden. Loss on building $65. Insurance $1,000. There was a loss on the stock of Mr. Fessenden of $600, with an insurance of $1,000. At this fire the department did well in saving the building. Cause of fire unknown.

Sept. 17th, house of A. Abendroth at Arlington Heights. Loss $3,000. Insurance $2,500. Cause of fire unknown.

MEMBERSHIP.

The membership is the same as that of last year. The pay was reduced ten dollars per man, to conform to the reduction in the appropriation, which caused some dissatisfaction, and the loss of some members.

We find it difficult to fill the companies with such men as we would like.

It has been our sad duty to convey to its last resting place the remains of one of the oldest and best men in the department. I refer to our late foreman Edward B. Moore.

HOSE.

The Hose of the department is in no better condition than last year, and I would call your particular attention to the same. I would recommend the purchase of some new Hose this year.

DEPARTMENT BUILDINGS.

The hose houses are in much the same condition as last year, a few necessary repairs have been made.

I would again call your attention to the unprotected condition of the property in the outskirts of the town.

APPROPRIATIONS.

I would recommend an appropriation of two thousand dollars ($2,000) to meet the expenses of the ensuing year, and am satisfied it is the smallest sum necessary to maintain the department and keep it in good working order.

PERSONAL RECOGNITION.

In closing I desire to express my sincere thanks to my assistants for the able and cheerful manner in which they have assisted me in the discharge of duty.

The members of the department I shall ever remember with feelings of gratitude for their promptness in answering to the calls of fire, and also in obeying the orders of their Chief.

To the Police and the Superintendent of Streets I extend my thanks for many favors.

Respectfully submitted,

CHARLES GOTT,

Chief Engineer.

REPORT

OF THE

TRUSTEES OF THE PUBLIC LIBRARY.

The whole number of books in the Library is, 6,530.

The number of books given out during the year 1879 is, 26,724.

The trustees deemed it advisable not to close the Library for inspection until the summer vacation. Hence we are unable to report the number of volumes missing.

Amount of fines paid to the Town Treasurer, $57.

The increase of the circulation of books shows a deepening interest in our Public Library, and I do not feel that I can add anything to what was said in our report of last year towards its welfare.

We ask that the same amount as given last year be appropriated for the support of the Library for the ensuing year.

JOHN H. HARDY,

For the Trustees.

SCHOOL COMMITTEE'S REPORT.

To the Town of Arlington:

The combined reports of the sub-committees are presented as the Annual Report of the School Committee. They sufficiently show the progress and state of the different schools.

The committee is large enough to admit of a distribution of duties among its members. Still this does not limit their interest in the general management of all the schools. At the meetings of the committee, always fully attended, the condition of the schools is reviewed, and each member becomes well informed upon all essential matters pertaining to them.

There has been more than the usual number of resignations and election of teachers. Indeed, in few towns have the teachers continued longer in service than in this town. The school system tends to make their work simple, clear and well defined, and so long as their compensation has been a reasonable requital of their labor, they have been content to remain. It is due to them to say that their long service has not tended to bring them into fixed and unprogressive habits of teaching, but their intelligence and interest in their calling have prompted them to observe improvements in method, and to take the lead in suggesting their adoption. The schools are the scene of lively and useful work.

Among the resignations are to be included Miss Sarah F. Packard of the Second Russell Primary, whose unsurpassed

qualities as a primary teacher, manifested in her ten years' service, have endeared her to children and parents. Then Miss Evelyn J. Locke of the Cutter Grammar, whom the committee had hoped to keep out of the sight of those who were able to offer better inducements, at least until the time when the town could afford to pay a salary commensurate with her merits, accepted to our great loss and regret, an appointment in the City of Cambridge. Finally, Miss Sarah F. Gibbs, long in the same department, marked as a most diligent and pains-taking teacher, resigned to look for a situation securing larger remuneration.

In the discussion of educational topics at large in the community, two departments are especially brought into question, viz. : high and primary schools. The former have been brought face to face with the economical test, in such manner as not only to make material change probable, but their very existence in the future problematical. The committee have been satisfied to avail themselves of such light as the discussion has thrown upon the character of instruction, and to leave the graver results to be considered when the danger shall be more imminent. The inquiry into primary instruction has reference solely to method, and asks how shall the young mind be directed in its earliest steps in learning how to learn. Our primaries are fortunately not so full as to place the teachers in a crowd of little ones where attention to each would be impossible. The teacher is expected to read, visit and know by observation whatever has been discovered as the best means of bringing into earliest action the faculties which are to be developed all through school life. So far as it appears, the primary teachers, each in her own way, have so applied their knowledge as to release the children from their old drudgery, to teach them to read by word, and to relieve them by change of pastime and some light occupation. Not that this is a new method with the teachers, for it is one in effect which their intelligence long ago brought about.

The instruction in singing has improved from year to year, for the reason that Mr. Marshall has been enabled through his long experience to apply his teaching in a progressive and systematic way, as his pupils advance from class to class. The skill and diligence of the Instructor in Music entitle him to the highest commendation.

The committee, under the law, appointed three truant officers. Truancy has not prevailed to any great extent at any time. It has been necessary for the benefit of example to bring two or three cases before the magistrate, and in these it was found that probation would serve the turn instead of penalty.

The committee ask the continued favor of the town in support of the public schools.

WM. E. PARMENTER, *Chairman*,

For the School Committee.

Cotting High School.

At the close of the school in July, Mr. Geo. F. Chace declined a re-election as Master and has received an appointment in the Academy at Taunton. Miss Harriet J. Williams, the First Assistant, resigned, having been appointed Instructor in Latin at Smith College in Northampton.

Mr. Charles M. Clay was elected Master, and Miss Sarah A. Hamlin, First Assistant.

There were the usual exercises by the graduating class, and a new class was admitted upon examination.

The fifteenth year since the establishment of the school has just expired. The school, well organized by able hands in the beginning, as to its studies and methods, has, in the main, throughout its existence, given the best results of skilful management. It has been fortunate in its teachers, and with rare exceptions, in the excellence of its discipline,

and in harmony in its work. In proof of this we can regard the practical tests of its graduates, some in the college ordeal, others in the profession of teachers, and all perhaps in the indications of character, intelligence and promise.

During the last half year the school has undergone careful revision. Such alterations in the building as its poor condition would admit of, have been made, tending to cleanliness and comfort. The chemical room has been rearranged and supplied with necessary apparatus and articles for experiment, and provision has been made for aids in other scientific studies, especially in the furnishing of models illustrating physiology. Reference books have been purchased in good number and with proper selection.

The most material change affects the course of study. Heretofore, Latin has been a required study for at least one year. By the addition of branches from time to time the number of required studies had become burdensome, for a three years' course. The change contemplates for the completion of the full curriculum, a term of four years; three years, as before, entitling a pupil to a certificate of graduation, and the fourth year, being optional, affording a post-graduate course. In this way, Latin has been made an elective study, to be pursued by those who take it for a longer time than under the former requirement, while for those who prefer a more strictly English course, a proper branch has been substituted. By this arrangement the studies followed contemporaneously by any pupil, are not more than three, and those which had brought excessive work are prolonged into the post-graduate year. The change has permitted a better arrangement, particularly in the departments of science and of English and American literature. The classical course necessarily remains the same, as this must be guided by the requirements for admission to college.

The committee believe that at no time in its history, has the High School been in better hands, or in more favorable

condition than it now is; and they feel assured that it has never before stood higher in the public estimation and confidence.

WM. E. PARMENTER,

For the Sub-Committee.

Russell Grammar School.

(*First, Second and Third Grades.*)

Within little more than a year's time, the first grade has been under the supervision of three different teachers. Mr. Grover left at the close of the fall term of 1878; Mr. Dunbar succeeded him in January following, and had only fairly got the school into good running order again, when he was taken sick; it was then thought that he would soon recover, and Mr. Wardwell of Boston was engaged in April, as a substitute. Nearly a year has passed, and Mr. Dunbar is still unable to attend to school duties. During this time, Mr. Wardwell has proved to be an able and efficient teacher, fully meeting the expectations of the committee.

The second grade is still under the excellent management of Miss Hobart, and the average attendance is about the same as last year.

Miss Gould still continues as teacher of the third grade, and although her responsibility is increased by the larger attendance, her duties are performed in a satisfactory manner.

CHAS. E. GOODWIN,

For the Sub-Committee.

Russell Grammar School.

(*Fourth, Fifth and Sixth Grades.*)

The fourth class is still under the charge of Miss Pillsbury.

At the beginning of the school year, the fifth class was so large (78), that it was found necessary to divide it, and portable desks were purchased and placed in the hall, which has proved a very good school-room. The desks can easily be moved, and the hall used entire as formerly. This class as divided is taught by Miss Flanders and Miss Tupper.

The sixth grade, which consists of two classes, is taught by Miss Warren and Miss Carpenter.

We believe these grades are under the charge of competent and efficient teachers.

J. S. CROSBY,
For the Sub-Committee.

Russell Primary Schools.

As regards the condition of these schools, your committee feel that it is one of general excellence. Considering the extreme youth of the pupils, any report relating to scholarship or advancement in learning, can hardly be expected. The system of teaching is largely a matter of discipline in a mild form, an affectionate manner, and preparatory training. The method of "object teaching"—as taught in a small way in these schools—cannot be too highly commended, affording as it does a pleasant and healthful task, at the same time stimulating the young mind and preparing it for practical use.

The first class in this Department is still in charge of Miss Schouler, who has so ably filled the position for several years. In the second class a change was made at the close of the summer term, caused by the resignation of Miss Packard, after ten years of meritorious service in our schools. The vacancy was filled by the appointment of Miss Morrill, with whose management the committee have reason to be pleased. The third class remains in charge of Miss Fessenden. Probably there is no school in town requiring more care and earnestness, and causing so much anxiety on the part of the teacher. We feel that there can

be no higher praise awarded, than to say that it is carefully and zealously managed. The average attendance during the past year has been good; but few cases of absence on account of sickness.

Much complaint is made of the habit which some of the children have of "loitering on the way," while returning to their homes after dismissal from school. The liability to accident, the uncertainty as to their whereabouts, and the influence which such a habit must have on well-disposed children, are matters that should interest all parents and guardians, and it is hoped they will give proper attention to them.

M. MORTON,

For the Sub-Committee.

Crosby Primary Schools.

The two grades in these schools remain under the same instructors as during the year 1879, viz.: Miss M. F. Scanlan and Miss Annie C. Snelling. Miss Scanlan continues in charge of the older scholars, and still retains the confidence of the committee. A large percentage of the first class under her charge were promoted at the commencement of the fall term to a higher grade and are well maintaining their position.

Parents are always anxious when the time for promotion arrives, that their children should take their places with others in a higher grade. The teacher finds it almost impossible to comply with the wishes of the parents, unless their children attend the school regularly and punctually every school-day, and no parent or scholar should expect promotion unless the scholar is duly qualified. The committee are prompted to these remarks by matters happening at the opening of the fall term.

Miss Snelling, having had charge of the second primary, has given entire satisfaction, and the committee consider her faithful and efficient.

In instructing primarians, the daily need of patience and perseverance becomes apparent. The tender age of the scholar requires more than ordinary care as they enter and retire from the school-room, especially in cold and stormy weather.

The attendance at these schools during the year has been a trifle below the average of the former year, but so far during the winter term the per cent. of attendance has been larger than that of last year, and but very little unusual sickness has prevailed among the children.

During the summer vacation, the committee found it necessary to make certain repairs on the school-house and out-buildings. One of the furnaces having become unfit for further use, a new one was substituted, the school-rooms, entries and cellar thoroughly whitewashed and cleansed, and such carpenter's work and painting, as was deemed advisable, done. The committee also found upon examination that the water from the roof was working its way into the cellar, causing dampness to arise therefrom, and in order to avoid this difficulty, the underpinning of the house was repaired and quite an amount of gravel deposited around the building, altering the grade and directing the water away from the house, thereby making it more comfortable and healthful.

D. F. JONES,

For the Sub-Committee.

Cutter Schools.

At the beginning of the fall term Mr. Clay was promoted to the Cotting High School. Mr. H. A. Freeman of Provincetown was appointed as his successor.

After a long and faithful service, one of our best teachers,

Miss Evelyn J. Locke, resigned, to take charge of one of the Cambridge schools. The vacancy has been filled by Miss Mary E. Stiles, of Cambridge.

Miss DeBlois and Mrs. Thompson continue to give satisfaction.

HENRY SWAN,

For the Sub-Committee.

Locke Primary Schools.

The schools in the Locke Building, at Arlington Heights, are progressing well under the efficient care and instruction of Miss Mary L. Peirce and Miss Millie B. Farrington. The latter lady was appointed at the beginning of the present term to fill the vacancy caused by the resignation of Miss Louise M. Farrington on account of ill health, and has proved, it is understood, a teacher very satisfactory to both parents and children.

Miss Peirce is a teacher of long experience and excellent abilities, who was appointed during the summer vacation, to take the place of Miss Sarah F. Gibbs, and is considered by the committee a decided acquisition to the town's roll of teachers.

FRANCIS V. B. KERN,

For the Sub-Committee.

SELECTMEN'S REPORT.

THE undersigned, Selectmen of the Town, herewith make to you the Report of their doings for the financial year ending Dec. 31, 1880: —

Highways.

Appropriation,	$7,500 00
Concrete and brick sidewalks,	500 00
	$8,000 00
Expended,	7,741 93
Balance unexpended,	$258 07

It will be seen by reference to the Treasurer's Report, that the expense of concreting sidewalks abutting the Cemetery and High School premises, was taken from the highway appropriation.

The following extracts are taken from the Report of the Superintendent of Streets to the Selectmen: —

Total number of loads of gravel and stone used, including about 450 loads placed upon the sidewalks, 5,860, and distributed as follows: —

Arlington Ave.,	1,668 loads	Mystic Street,	677 loads
Academy Street,	65 "	Mt. Vernon Street,	38 "
Appleton "	195 "	Pleasant "	199 "
Appleton Court,	85 "	Pond "	27 "
Brattle Street,	15 "	Pine Hill "	8 "
Broadway,	612 "	Park Avenue,	226 "
Bow Street,	17 "	Summer Street,	36 "
Eastern Ave.,	25 "	Spring Valley St.,	11 "
Forest Street,	30 "	Warren Street,	46 "
Grove "	14 "	Walnut "	38 "
Lake "	34 "	Winter "	673 "
Lowell "	39 "	Sidewalks,	450 "
Medford "	632 "		
Total,			5,860 loads

Arlington Avenue.

The first principal work of the season was the repairing of this street, from Pattee's crossing to Water Street, and from Alewife Brook to near Teel Street, which was done by scraping the roadbed, and crowning it with crushed stone and gravel. This method of repairing has proved a success, and these sections are in excellent condition, and bid fair to remain so for some time to come. The portion of the avenue from Park Avenue to Lexington line has been placed in good condition by crowning with stone and gravel. Ruts and hollows have been repaired with finely screened crushed stone.

Academy Street.

This street is in good condition, the gutters having been cleared, and the roadbed re-gravelled from the avenue to the Academy grounds.

Appleton Street.

A part of this street has been re-gravelled, and the hollow near Oakland Avenue has been filled with stone and gravel.

Broadway.

A portion of this street has been thoroughly repaired (about 1,200 feet) by cutting down the shoulders of the roadbed and crowning the centre with blue gravel. Although the material has to be hauled a long distance, making the repairs quite expensive, yet we think that the citizens will see the advisibility of completing the remainder of the street in the same way the ensuing year.

Bow and Forest Streets.

But little has been done upon these two streets, from the fact of the possibility of the county commissioners ordering some alterations or improvements.

Lowell Street.

That part of the street near the reservoir greatly needs to be macadamized the coming season.

Lake Street.

Some portions of this street are becoming rough and uneven, and will have to be repaired with fine cracked stone the coming season.

Medford Street.

About 800 feet of this street, from the residence of Charles Gott to near the residence of H. L. Lawrence, has been macadamized the past season, making now about 1,400 feet of excellent street. We would suggest that the remainder of this street be repaired in the same way early in the coming spring. This, completed, would be one of the best streets in town.

Mystic Street.

About 700 feet of this street, near the estate of William Stowe, has been put in thorough repair with stone and gravel. Also the hollow between Russell and Summer Streets, which

was very flat and muddy in wet seasons, has been placed in good condition, by crowning with stone and gravel. Some other portions of this street will need like repairs the ensuing season. A section of the bank wall adjoining the James Wyman estate will need to be relaid in the spring.

Mount Vernon Street.

The gutters have been cleared, the wash-outs of the summer showers repaired, and the street is now in good condition.

Pleasant Street

Is in good order, yet some portions will need re-gravelling the ensuing year. About 700 feet have been crowned with blue gravel the past season.

Park Avenue.

This street has been partly re-gravelled the past season, and is generally in good condition.

Warren Street.

Some gravel has been used upon this street in filling the uneven places, thus placing it in a fair condition.

Walnut Street.

The gutters have been cleared, the centre of the roadbed crowned, and it is now in excellent repair.

Winter Street.

This street was formerly in a very bad condition, especially in wet seasons. The entire roadway has been placed in thorough repair with stone and gravel, and it is now one of the best roads in this vicinity.

Westminster Avenue.

We have had this street surveyed and a plan of it drawn, and have laid it out at a width of 40 feet; and we would recommend its establishment as a highway at the next March meeting, the abutters having agreed to waive all claims for damages, and to remove all fences and buildings.

The gutters have been cleared in nearly all the streets in town, and are in good condition for the winter.

We think it advisable to repair the streets with crushed stone principally, its cost being but a trifle more than the expense of picking and carting gravel. The total number of loads of gravel used the past year is considerably less than the former year, but nearly all of it has been drawn a long distance.

Guide Boards.

Five new boards have been placed in position; viz., at the corners of Medford, Webster, and Beacon Streets with Warren Street, and corners of Lake and Court Streets with Arlington Avenue. Some few old boards need to be repainted, and some replaced with new ones.

Watering Streets.

As in former years, a subscription was taken, and two carts were run during the season. Three new stand-pipes have been erected to facilitate the work.

Culverts and Bridges.

Several culverts have been taken up and relaid. One new culvert has been put in on Medford Street, and four new water-grates have been laid.

The Weir-river Bridge, on Medford Street, has been replanked, one-half the expense being paid by the town of Medford.

Stone Crusher.

The engine and crusher are in very good repair, but a new belt is needed. There is a large amount of stone in the yard ready for crushing, but perhaps not enough for the coming season. The teams and tools have been kept in good condition and repair, and are of equal value of a year ago.

Concreting.

Quite a large number of yards have been laid in different parts of the town. Where concrete sidewalks have been laid, one-half the expense has been paid by the abutters, as will be seen by the Treasurer's Report. Considerable has been done for individuals.

Concrete Gutters and Crossings.

A concrete gutter, consisting of 143 yards, has been laid on Claremont Avenue, near Wollaston Avenue. This work was very necessary, as during every rain we experienced more or less washing out. Upon several streets in town where they are of steep grade, the gutters should be concreted. Crossings have been laid as follows: two on Arlington Avenue, three on Pleasant Street, at the expense of the town; two on Pleasant, and one on Academy Streets, paid for by individuals; and one at the junction of Park and Arlington Avenues, one-half expense being paid by the Arlington Heights Improvement Society.

Sidewalks

Have been repaired with gravel on Arlington Avenue, Academy, Broadway, Dudley, Central, Medford, Mystic, Pleasant, Summer, and Warren Streets. There has been expended upon sidewalks the sum of $493.75, leaving an unexpended balance of $6.25. Walks on several of the streets very much need re-gravelling at an early day.

Almshouse.

The Almshouse, as for two years previous, has been under the care of Mr. George W. Austin and wife; and, as we believe, the affairs of the house have been conducted in a satisfactory manner.

Appropriation,	$1,400 00
Received for board, products sold, &c.,	445 48
	$1,845 48
Paid for supplies, repairs, &c.,	1,800 51
Unexpended balance,	$44 97

Whole number of inmates supported during the year, 9; discharged, 3; present number, 6. Number of tramps fed and lodged, 212.

Street Lamps.

The same number of lamps as last year have been lighted with gas, namely, 52, at a cost of about $14.07 per lamp; 54 lamps have been lighted with gasoline, at a cost of about $13.15 per lamp, cost of repairs extra. The gas-lamps have been lighted by two of the police, and the gasoline by a person employed by the Globe Gas Light Company.

Coal.

Following the custom of former years, letters were issued asking proposals for furnishing the needed supply for the Town; Mr. J. W. Peirce received the contract for $5.78 per ton, including housing the same.

Cemeteries.

Mr. John B. Hartwell has had the care of the cemeteries the past year. Foliage and flowering plants have been set as heretofore by Mr. Dinsmore.

Police.

The police, appointed by the Selectmen, are Mr. John H. Hartwell as chief, and Mr. P. J. Shean and Mr. G. Barry as assistants.

The following extracts are taken from the Report of Mr. Hartwell to the Selectmen: —

The whole number of arrests,	96		
Decrease from last year,	12		
Males,		89	
Females,		7	
		—	96

CAUSES OF ARRESTS.

Assault and Battery,	20	
Drunkenness,	22	
Larceny,	6	
Malicious Trespass,	10	
Breaking and Entering,	11	
Malicious Mischief,	5	
Evading Car-fare,	4	
Disturbing the Peace,	4	
Larceny from Person,	1	
Rape,	1	
Truancy,	1	
Embezzlement,	1	
Insanity,	1	
Miscellaneous,	9	
	—	96
Whole number of tramps sent by permit to the Almshouse,	193	
Eleven have been kept at the station,	11	
Total,	204	

Being 451 less than in 1879, and a decrease from the year 1877 of 1,209. The town has maintained its usual quietness the past year.

Licenses.

A majority of the Board finding it impossible for them to believe that it would be for the best interest of the Town to have licenses granted for the sale of intoxicating liquors, therefore no licenses have been granted.

Outside Poor.

Appropriation,	$2,300 00
Credit from Poor Widow's Fund,	435 00
	$2,735 00
Expended,	2,721 58
Balance unexpended,	$13 42

Three of the insane poor have died during the year, namely, John Hass, Endor Estabrook, and Levi I. Lombard. There are now three in the Asylum, Mr. Dennis Dunn, George V. Hill, and Margaret Lyons. The appropriation granted has been expended as best we knew how, and the amount expended for Mr. Thomas McCarthy, referred to in the Treasurer's Report, is to be refunded by the State.

Fire Department.

As has been the custom heretofore, we refer to the Report of the Chief Engineer.

Counsel Fees.

In this connection we would say, that after several ineffectual attempts to obtain a settlement in any way with Mr. Daniel Lyons for the board of his daughter in the Asylum, and having good reasons for believing that he was amply able to pay something, suit was brought against him, in which the Court gave judgment in favor of the Town; but he, having filed objections to the ruling of the Court, has carried the case to a higher court for decision.

Conclusion.

The Report of the Treasurer, following this, will give you a detailed statement of receipts and expenditures.

We leave the matter with you, fellow-citizens, to judge whether or not we have acted judiciously in the management of the affairs of the Town.

Respectfully submitted,

HENRY MOTT,
WILLIAM H. ALLEN,
JAS. A. BAILEY,
Selectmen of Arlington.

JOHN P. WYMAN,
DAVID P. GREEN,
HENRY SWAN,
B. DELMONT LOCKE, *ex officio*,

Trustees of Pratt Fund.

ARLINGTON, Dec. 31, 1880.

REPORT OF WATER COMMISSIONERS.

The Board convened, immediately after the annual March meeting, and organized by the choice of Henry Mott as President, and B. Delmont Locke, Clerk and Registrar. At a subsequent meeting Sylvester Stickney was chosen Superintendent.

It will be remembered, that at the annual meeting the town appropriated fifteen hundred dollars, to be expended under the direction of the Board, for the increase of our filtering capacity. Under the above appropriation, we have expended upwards of thirteen hundred dollars. The Board made frequent visits to the reservoir, for the purpose of ascertaining the best location for constructing the proposed filter, and, after a full discussion of the whole subject, were unanimously of the opinion, that the most practical plan was to lengthen the present filter. With this view, we caused excavations to be made for a distance of one hundred feet from the terminus of the old filter, in a line parallel with the bank of the reservoir, walling up the sides with heavy stone for foundation, and covering in the whole with a brick arch laid in cement. We have to-day a continuous filtering gallery two hundred and thirty feet in length, with a width of twelve feet at the base. This addition has given a large supply of filtered water; but by no means has it proved to be an adequate supply for the wants of the town.

The marginal soil of the reservoir, so far as it has been tested by experimental excavations, is ill-adapted for filtering purposes. In the construction of the new filter, a single

steam-pump sufficed to free the trench from water, for the workmen; whereas, had we found a good filtering soil, two or three pumps would have been required.

The town of Waltham, with a filtering basin located on the banks of Charles River, covering an area of less than five thousand feet, has never wanted for full supply.

It is a most difficult matter, taking into consideration the almost unprecedented drought which has prevailed for the last seven months, to state with any thing more than guess-work how nearly we have reached the point of filtering all the water required by the town. Certain it is, that, had the town not seen fit to authorize the present extension, the number of hours per day, during the past season, in which we could have drawn a supply from the filter direct, would have been very few. We believe, therefore, that the outlay was a judicious one, although the supply has not been as great as had been expected.

The first year after the construction of the filter, assuming the reservoir to be full, shows its maximum capacity; for the water passing through the great meadows carries vegetable substances held in solution, and these minute particles in their passage through the soil, from reservoir to the filtering gallery, must, to a certain extent, leave a deposit in the filtering soil, which, from constant accessions, will prove a serious obstacle to quick filtration. During the last season, after the excessive drought began, we could only supply water from the filter from early in the morning, until about three o'clock in the afternoon. This alternately drawing from filter and reservoir deteriorates the entire supply: the filtered water passes into the main pipes, already filled from the reservoir, and containing at least the sedimentary deposit of the previous night; so that some hours must necessarily elapse, before the mains are flushed, and the water is received by the taker in as good condition as when it left the filtering gallery.

It is evident that our citizens require, and must have, fil-

tered water for domestic use in full supply; and the problem before us, is, how to get it with the least outlay.

It is possible, that, by the application of the meter system to all takers using the water for other than domestic purposes, the check upon this enormous waste, which is everywhere apparent, would be sufficiently great to afford a supply from the present filter during the average season; but the introduction of meters would necessitate the appropriation of money, not only for the meter itself, but for the connections which must be made in attaching them to the service-pipes, and the boxing and covering of the meter to protect it from frost. Again, no meter has, as yet, been offered to the public, that gives perfect satisfaction in point of accuracy. If, on the other hand, the town should decide to still further increase the filtering capacity, this can only be done by additional appropriations, and by continued experiments in constructing one or more galleries, until sufficient is stored to satisfy all demands. The expense of a filter on the north side of the reservoir will be much less than on the south side; for no pipe is there required to be laid through a high embankment to connect with the main.

We do not present these points at this time by way of recommending the citizens to adopt either plan, but simply as suggestions, offering a possible solution to the difficulty. Perhaps, in v ew of the fact that the present filter has never been tried in an average season, it would be as well to let the whole matter rest for another year, or until such time as a fair test can be applied, to show how far we have fallen short of meeting the ordinary requirements of the town.

Uses for which water is supplied, as reported by the Registrar: —

Families	supplied,	356
Stores and shops	"	16
Private stables	"	52
Livery stables	"	2

Horse railroad stable supplied,		1
Steam railroad depot	"	1
Hand hose	"	128
Hotels	"	3
Churches and societies	"	7
Town House	"	1

Hose-houses	"	2
Private fountains	"	2
Irrigation	"	43
Cemetery	"	1
Savings Bank building	"	1
Stone crusher	"	1
Hydrants	"	98

Stock and tools on hand, as reported by the Superintendent: —

95 lbs. cast-iron gate boxes.
460 lbs. 4-inch iron pipe, 23 feet.
2 street service boxes.
1 second-hand street hydrant.
2 hydrant feet.
4 2½-inch hydrant nipples.
4 2½-inch hydrant caps.
2 4½ ft. frost cases.
6 hydrant rods.
1 hydrant centre rod.
5 rubber gaskets.
3½ ft. 12-inch cement-lined pipe.
7 ft. 6-inch cement-lined pipe.
7 ft. 4-inch cement-lined pipe.
73 lbs. manilla rope.
11 yds. rubber cloth.
2 eight-by-four cast-iron branches.
19 lbs. tarred rope, for calking.
2 picks.

1 snow-shovel.
2 pails.
1 hoe.
1 rake.
56 ft. 6-inch cement drain pipe.
5 ft. 6-inch branches drain pipe.
5 ft. 4-inch branches drain pipe.
3 lanterns.
5 gate wrenches.
2 wheelbarrows.
1 Gem meter.

All of which is respectfully submitted.

HENRY MOTT,
JOHN FILLEBROWN,
WILLIAM G. PECK,
} *Water Commissioners.*

ARLINGTON, Dec. 31, 1880.

B. DELMONT LOCKE, *Treasurer.*

Sections 15 and 16 of Rules of Water Works.

SECT. 15. The following rates shall be charged annually for the use of water, namely: —

DWELLING HOUSES.

Occupied by one family, for the first faucet,	$5 00
For each additional faucet, to be used by the same family,	2 00
Where a house is occupied by more than one family, and less than four, one faucet only being used for all, for each family,	4 00
Where a house is occupied by four or more families, and but one faucet is used by all, for each family,	3 50
Where a house is occupied by more than one family, the highest rates will be charged for each family having the water carried into their part of the house.	
For the first bath-tub,	5 00
For each additional bath-tub,	3 00
For the first water-closet,	5 00
For each additional water-closet,	3 00
For hopper water-closets, special rates will be made.	
Where bath-tubs or water-closets are used by more than one family, for each family,	4 00
Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both; *provided*, that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00

BOARDING HOUSES.

For the first faucet,	$10 00
Each additional faucet,	2 00
Water-closet or bath-tub, when used by boarders,	10 00
Each additional bath-tub or water-closet,	3 00

STORES, OFFICES, WAREHOUSES, ETC., NOT INCLUDING MANUFACTORIES OR WORKSHOPS.

First faucet,	$5 00
When two or more tenants are supplied from the same faucet, each,	4 00
Water-closet used by occupants of one tenement only,	5 00
When used by occupants of more than one tenement, for each tenant,	4 00
For each additional faucet or water-closet, half of above rates will be charged.	

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water,	$5 to $25

HOTELS.

For each bed for boarders and lodgers,	$3 00
For each bath-tub in a hotel,	10 00
For each water-closet in a hotel,	10 00

PUBLIC BATHS.

For one tub in public bath-house,	$10 00
For each additional bath-tub,	5 00
For one water-closet in public bath-house,	10 00
For each additional water-closet,	3 00

STABLES.

Private Stables.	For the first horse,	$5 00
"	For each additional horse,	4 00
"	For one cow,	2 00
"	For each additional cow,	1 00
Livery, club, and boarding stables.	For each horse,	3 00
Car and omnibus stables.	For each horse,	2 00
Truck and cart stables.	For each horse,	2 00

Provided, that in no case shall any stable be charged less than $5.

The rates for stables include water for washing carriages without hose.

HOSE.

For hose of not over three-eighths inch orifice, used for washing windows, sprinkling streets (and the use of the same shall be limited to one hour per day), not less than	3 00

STEAM BOILERS.

For each boiler in use not over twelve hours a day, for each horse-power,	$6 00

BUILDING PURPOSES.

For each cask of lime or cement,	6 cents

HYDRANTS.

Hydrants set by the town at the rate of $28 each, allowing one hydrant to each 200 inhabitants.

SECT. 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of water Commissioners; and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases, in their judgment, the interests of the town shall require.

AUDITORS' REPORT.

The undersigned hereby certify that they have audited the books and accounts of B. DELMONT LOCKE, as Treasurer and Collector of the Town of Arlington, for the year 1880; also as Treasurer for the Arlington Water Works for the same year: and find the same correct, with vouchers for all the payments, and the balance of cash to be as stated by him.

ABEL R. PROCTOR,
REUBEN W. HOPKINS, } *Auditors.*

ARLINGTON, Jan. 29, 1881.

ANNUAL REPORT

OF THE

CHIEF ENGINEER OF THE ARLINGTON FIRE DEPARTMENT.

To the Selectmen of the Town of Arlington:

GENTLEMEN, — I herewith submit my Third Annual Report of the Fire Department, being for the year 1880.

FIRES AND ALARMS.

The department has been called out six times during the year, as follows:—

May 3d, barn of Mrs. A. G. Peck, Pleasant Street. This was the most serious fire we have had during the year, and the only one that we were obliged to use water on. At this fire the department responded promptly and worked hard; but, owing to the low pressure of water, we were obliged to carry the water to the fire, instead of throwing it on. Loss by this fire $2,500. Insurance $3,000. Cause unknown.

June 17, alarm of fire in High School building. Loss mostly by water from the melted water-pipes. Cause unknown.

September 1, fire in basement of S. Stickney's store. Cause, ignition of oil. Damage slight.

October 12, fire in furniture-store of T. F. O'Brien. Caused by carelessness. Loss $100. Insured $400.

November 18, alarm of fire at S. A. Fowle's drug mills. Cause, bursting of boiler-flue. Damage slight.

MEMBERSHIP.

Same as that of last year, with the exception of the engineers, who were reduced from five to three men, in accordance with the vote passed at the town-meeting of March last. I find it difficult to keep the company full of good men. I would recommend that the pay of the firemen be raised to the old standard of thirty-five dollars per year, and that three additional men be added to hook-and-ladder truck.

HOSE.

The hose is in the same poor condition as represented last year; and, if something is not done soon to renew or repair the same, I fear for the consequences.

I would recommend the purchase of one thousand feet of hose.

DEPARTMENT BUILDINGS.

The buildings are in much the same condition as at the close of the year 1879. There has been no new outlay on the same the past year, 1880.

The floor in house of Hose 3 is in poor condition, and needs repairs. The building occupied by Hose 2 is in too poor a condition to be repaired, and, in my opinion, is an unfit place in which to put the apparatus.

APPROPRIATIONS.

I would recommend an appropriation of twenty-five hundred dollars to meet the expenses of the ensuing year.

I desire to call your attention to our imperfect system of fire-alarm, and think all interested citizens will agree that there should be some change from the present system.

I take this opportunity to thank you for your support, also my assistants and members of the fire-department. I shall ever remember the able manner in which they have performed their duty, with, I trust, as much satisfaction to the public, as they have to me.

Respectfully submitted,

CHARLES GOTT,
Chief Engineer.

REPORT

OF THE

TRUSTEES OF THE PUBLIC LIBRARY.

The expenses of the Library during the past year are fully set forth in the Town Treasurer's report, printed elsewhere. Other items of interest to its friends and supporters appear in the Librarian's statement appended hereto.

Some important changes in the management of the Library have been rendered necessary by the constantly increasing business. The yearly examination formerly took place during the last two weeks of December, at the height of the season when books were in greatest demand. The inconvenience to the public which this occasioned seemed a matter of small importance when readers were few; but it grew serious after the popularity of the Library had become such, that often more than two hundred volumes a day were given out. The time for calling in the books has been postponed to July, when the interest of readers is at its lowest ebb.

The method of giving out books was also changed during the past year. The old ledger system, which serves well for a small library, is found full of embarrassments in a large one, when two or more persons are employed in delivering and receiving books. We have accordingly dispensed with the ledger, at which only one person could conveniently work at a time, and adopted the most approved modern method of

paper slips. It has been proved a very great improvement on the old system in many ways.

Book-cases have been added as they have been required by new books, until but little room remains for further additions in our present quarters. This fact must soon become one of pressing importance to the Town. Not only more liberal space for books will soon be required, but at the same time the establishment of a reading-room cannot be too strongly recommended, or too early provided for. The present usefulness of the Library would be greatly enhanced by such an addition, and it is believed that in no other way could so much be done for the moral and social welfare of the young people of this community.

The Library has for some time been indebted to Mr. C. S. Parker for complete files of "The Arlington Advocate" at the close of each year. These are preserved for future reference.

We are also under obligations to the editor for printing our bi-monthly lists of new books in the columns of "The Advocate." This has been without cost to the Library; but the lists have become numerous, and confusing even to readers who have preserved them all. A supplementary catalogue, therefore, comprising all the additions to the Library, since the large catalogue of 1876, has become necessary, and will be issued at an early day.

J. T. TROWBRIDGE,
For the Trustees.

LIBRARIAN'S STATEMENT.

Number of volumes in the library, July, 1880 .	6,838
Number of magazines taken, weekly and monthly .	9
Books added from July, 1880, to January, 1881 .	199

Whole number added in 1880	504
Number given out in 1880	25,640
Largest number delivered in one day	239
Number not returned to the Library, from January, 1879, to July, 1880	10
Whole number of subscribers, January, 1881	1,332
Fines paid to the Town Treasurer in 1880	$76

LIZZIE J. NEWTON,
Librarian.

SCHOOL COMMITTEE'S REPORT.

The School Committee herewith respectfully submit to the Town their Annual Report.

They believe that they have cause for congratulation in the general prosperity of the schools, in the seeming harmony that has prevailed between teachers and scholars, and in the faithful work that has been performed by the teachers during the past year. In a town where the salaries paid in many instances are not an adequate compensation for the ability or experience desired, it is impossible in the selection of so large a corps of teachers to satisfy the exacting demands of some parents who do not understand the variety of character that must be dealt with in each schoolroom. Strict impartiality in discipline is expected. To many parents it seems a hardship that *their* children should be made to conform to the seemingly rigid rules that would not be required in the management of their children at home. We earnestly urge upon the attention of those who are disposed to complain, a careful examination of the schools where their children are placed, and the cultivation of the acquaintance of the teachers who have them in charge. We know those teachers would gladly welcome any such examination and the suggestions that may be made as to the discipline of such children. It is natural for the child to make complaints at home, which may on investigation prove reasonable or unreasonable; but it is better that conference between the teacher and parent should precede any harsh criticism upon that teacher's action

in the presence of the child. The Committee fortunately have had but little trouble during the past year upon questions of discipline. One or two cases of truancy have been brought to our attention, and one boy has suffered punishment therefor by sentence to confinement in the Reformatory School at Lowell.

We are satisfied that by means of our graded system the best education can be imparted to the greater number of the scholars in our schools. The age at which the majority of our scholars graduate from the Grammar Schools ranges from twelve to fifteen years. If the course of study prescribed for the Grammar Schools, and as taught by our teachers, is thoroughly acquired and understood, we believe that would be a result that would satisfy the people of our town. Certainly it would be a result that could not be acquired by the large majority of our scholars under the former common-school system. I speak of this to reply to the criticisms of some who wonder why their children do not learn more, and object to the constant reviewing and repetition made necessary by the prescribed course for each term and year. What education aims at is the discipline of the mind, and to compel habits of accuracy in the acquirement of knowledge. The opportunity of getting knowledge by observation, reading, and conversation, comes to every one after leaving school or college; but the power to acquire it, to digest the same, to judge of its bearings in every respect, and to express the results of one's thoughts upon such knowledge, must be strengthened in our schools. Strength of the mental powers is only obtained by the complete mastery of the studies proposed to the scholar. The old system of education resulted in educating to a high standard two or three naturally gifted scholars at the expense of the rest of the school.

The High School, as it appears from the report of the sub-committee, is in a prosperous condition. Mr. Clay, with zeal for his work, is untiring in his endeavors to serve the best interests of the school. The number of scholars now fitting

for college, with the high standard required for admission, has imposed upon him much extra work during the past year. We trust that in the coming year the scholars in the college course will be so classified that his services can be devoted to a greater extent to the English studies. Miss Sara A. Hamlin, early in the year, suffered an unfortunate accident, which deprived us of the services of a faithful and painstaking teacher until the beginning of the January term. We are glad to see her again in her former station. In Miss Simmons's department we find that she has succeeded in stimulating to a gratifying degree that enthusiasm for inquiry which is the true criterion of a successful teacher. We believe no parent can afford to have his children forego the advantages of the High School. To some it seems best that the boy of fourteen who graduates from the Grammar School should then commence to learn some trade, or enter upon a mercantile career. This belief oftentimes is encouraged by the boy, who is eager for the excitement of a city life. But it does not seem reasonable, nor does experience prove, that the boy who spends the three years after he leaves the Grammar School as an errand-boy, or an under-clerk, can possess any superior advantages in his whole life career to the one who at seventeen years of age has completed his High School education. We congratulate the school that its former high standard at Harvard has been maintained by James Parmenter, one of the late graduates of the High School, who has received special honor and notice by vote of the faculty. The Committee are glad to announce that the long-needed repairs to the High School buildings and grounds have been completed. These have been made at an expense which we think will be appreciated by the town.

The mastership of the Russell School has been the subject of some change during the past year. Mr. J. H. Wardwell remained in charge of the school until the Summer vacation. With an ample experience as a teacher, he instituted and reformed methods of discipline in the school, which we hope

will confer upon its future management a lasting benefit. Mr. S. J. Dunbar was re-elected for the year, beginning with the Fall term, but on account of his continued ill-health he concluded to resign the position. The Committee wish to express their warm appreciation of the zeal and heartfelt interest in the instruction of his pupils that have been manifested by Mr. Dunbar during his long connection with the Arlington schools. Upon a very short notice the Committee were quite fortunate in the selection of Mr. Henry L. Armes, of Nashua, N. H., as Master of the Russell School, who entered upon his duties in the Fall term. From the examinations of the sub-committee, and my own, we believe that the faithful endeavors of the teachers in the lower grades of the Russell School have shown good results this year, and that those results will challenge comparison with those of any other town with the same advantages as possessed by Arlington.

The Crosby Primary School has been under the charge of Misses Scanlan and Snelling. The reports of the school show that the standard maintained by these teachers in former years is still preserved.

Mr. H. A. Freeman is giving general satisfaction to the Committee in his management of the Cutter School. The other schools in the same building are taught by the same teachers as of last year, and their several classes in the examinations have shown satisfactory progress during the year. On account of the sickness of Miss Stiles, a faithful and active teacher, the Committee were obliged to obtain a substitute. They were fortunate in their ability to employ the services of Miss Caroline C. Turner, who has been so long and so favorably known as a teacher in our schools.

The reports from the Locke School, at the Heights, show that the teachers are efficient in the discharge of their duties, and are giving general satisfaction to the parents of their pupils.

The Committee hope that the parents will freely consult

with the Committee and the teachers, and offer suggestions wherever they see a chance for improvement in our schools.

The schools owe much the last year to the labors of Messrs. Swan, Morton, and Winn, who, in the discharge of their duties as a sanitary committee, have secured such changes and improvements in the system of drainage of the Russell Schoolhouse as to protect the purity of the air of its rooms. Their labors and investigations in all the schools have secured, as we believe, improvements in the ventilation and care of the rooms, which should be impressed upon the teacher's mind as a matter of primary importance.

I close this report with the hope that the town will, in the coming year, appreciate the cause of education by an appropriation adequate to the best educational interests of a municipality surrounded by towns and cities which, in the superiority of their schools and teachers, rank among the best in the United States. In order to retain competent and faithful teachers, we are dependent upon your generous support.

JOHN H. HARDY, *Chairman*,
For the Committee.

SELECTMEN'S REPORT.

THE Selectmen of the Town of Arlington herewith submit the Annual Report of their doings for the year ending Dec. 31, 1881: —

Highways.

Appropriation,	$7,500 00
Sidewalks,	500 00
Received for labor, concrete, etc.,	2,040 36
	10,040 36
Expended,	9,714 15
Balance unexpended,	326 21

The report of Superintendent of Streets gives the following statistics: —

Total number of loads of gravel and stone used, including 329 loads placed upon sidewalks, 6,790, and distributed as follows: —

Arlington Ave.,	957 loads	Lowell Street,	294 loads
Brattle Street,	46 "	Maple "	48 "
Broadway,	1,962 "	Mystic "	692 "
Eastern Ave.,	25 "	Mill "	20 "
Grove Street,	14 "	No. Union "	126 "
Lake "	12 "	Pond Lane,	28 "

Pleasant Street,	416	loads	Spring Lane,	166	loads
River "	11	"	Water Street,	42	"
Russell "	2	"	Westminster Ave.	1,576	"
Summer "	16	"	Sidewalks,	329	"
Spring Valley,	8	"			
Total,				6,790	loads

Bow Street.

Nothing has been done on this street, because there is a prospect of some alterations being made by the County Commissioners, which are now under consideration. We think there is a very evident necessity of an expenditure upon this street.

Arlington Ave.

Two sections of the avenue, that from the H. R. R. crossing to the shop of W. L. Clark, and a section near Teel street, have been crowned with stone and gravel. There are several sections that much need repairs the ensuing year.

Broadway

Has been thoroughly repaired from the main avenue to its junction with River Street. This was quite an expensive job, as we had to haul the material such a long distance. This street is now in excellent condition, excepting that portion from Warren to Winter Street, which could be quite cheaply repaired by cutting the hill about a foot near the residence of Joseph Teel, thereby securing sufficient material for the purpose, and also taking a portion of the surface water from the vicinity of Tufts Street, which has to run the other way a long distance to water grates near Webster Street, and at times in such quantities that the grates are unable to receive it.

Dudley Street.

Some portions of this street will need regravelling the coming season.

Eastern Avenue.

Owing to the very steep grade of this street, some portions have become badly washed, and will soon need repairs.

Lake Street.

Some portions of this street are very flat, and becoming very rough and uneven, and need crowning with stone and gravel.

Lowell Street.

That part of the street near the Reservoir and Lexington line should be macadamized or gravelled the ensuing year.

Medford Street.

As we have before suggested, this street, from the Cemetery to Mystic River, is in very bad condition, and we think demands the attention of this department the very first of the season.

Mystic Street.

Quite an unexpected outlay has been necessitated the past year on the bridge and street near Winchester line caused by the setting back of the walls by Mr. Smith, as located by the County Commissioners. The hill near the Russell Park has been repaired.

North Union.

The hill near the residence of David Scanlan has been repaired with stone and gravel.

Pleasant Street.

A portion of this street has been repaired with stone and gravel.

Park Avenue.

No gravel has been used on this street the past year. It will need considerable crowning in some places the ensuing season.

River Street.

Very much needs crowning its entire length with gravel.

Westminster Avenue.

This street, accepted by the town last spring, was our first work of the season, and we think we can safely assert that we have, within our estimate, completed a street satisfactory to residents of that locality, and a street that will wear for a long time without many repairs.

Sidewalks.

As will be seen by the report of loads of gravel used, considerable has been placed on the walks. This does not include that paid for by abutters, as whenever they wished for screened-gravel, one-half the expense has been paid by them. Many gravelled walks in town much need repairs.

Guide Boards

Are in about the same condition as last year, excepting in a few instances where they have been destroyed by some malicious persons, and which will need to be replaced by new ones. One new board has been placed at Westminster Avenue and two at private streets.

Watering Streets.

As in former years, subscriptions were taken early in the spring and a sufficient amount being raised to warrant an addition to the former routes — portions of Broadway and

Medford Streets, and on the Avenue from Winter Street to Cambridge line, — thus necessitating the expense of one additional standpipe and one more cart. We think the satisfaction of the abutters will warrant a continuance of the same routes another season.

Bridges and Culverts.

Two new culverts have been put in and several taken up and relaid. The brick arched bridge on Mystic Street has been lengthened about twenty-four feet. Two new water-grates have been set.

Stone Crusher and Stone.

A new belt has been purchased and considerable repairs made, and the crusher is now in a very fair condition. We have on hand quite a large amount of stone crushed for use. As will be seen by the financial report, we have sold considerable stone, and we have now a larger amount on hand than usual ready for crushing.

Teams and Tools.

The teams and tools are certainly of the full value of a year ago and are in good repair. We have purchased two water-carts the past season.

Concreting.

But little has been done the past season in concreting sidewalks. Several yards of concrete gutter have been laid in Maple, Pleasant, and Mystic Streets. We think it would be economical to put down concrete gutters on many of the streets of steep grade. We presume it is very evident to the citizens that there are many repairs and improvements needed upon our highways and sidewalks which will demand attention another year.

Almshouse.

The Almshouse has been under the superintendence of Mr. G. W. Austin and wife, and, as we think, the affairs of the house have been conducted in an acceptable manner.

Appropriation,	$1,400 00
Received for board, products, etc.,	383 73
	$1,783 73
Paid for supplies, repairs, etc.,	1,779 42
Balance unexpended,	$4 31

Whole number of inmates for the year,	10
Present number,	9
Deaths,	1
Number of tramps fed and lodged,	57

The furniture and fixtures of the house have been kept fully up to the value of a year ago.

An additional appropriation will be required the ensuing year for the purpose of laying new pipes for conducting the water from the spring to the buildings.

The pipes are now badly corroded and worn, and considerable has been expended the past year in digging for leaks and repairing.

Outside Poor.

Appropriation,	$2,300 00
Credits per Treasurer's account,	352 40
	$2,652 40
Expended,	1,884 85
Balance unexpended,	767 55

There are now three persons at Insane Asylums — Dennis Dunn, George V. Hill, and Margaret Lyons. It will be seen by reference to the Treasurer's report that the amount expended for Thomas McCarthy last year has been refunded by the State.

Street Lamps.

There has been one new lamp erected on Russell Street, making 53 in all for burning gas. There are also 54 for burning gasoline. The lamps have been lighted the same as last year; those burning gas, by two of the police; the others, by a person employed by the Globe Gas-Light Co.

Appropriation,	$2,100 00
Expended,	1,626 65
Balance unexpended,	$473 35

Coal.

The coal for the Town was furnished by Mr. Horatio Wellington of East Cambridge on contract, he being the lowest bidder among several others, for the sum of $5.90 per ton, and 60 cents extra for Lehigh, including housing.

Cemeteries.

The cemeteries have been under the care of Mr. John B. Hartwell. There has been a new fence erected on the line adjoining the land of the late Benjamin F. Russell, the old one having become very much delapidated. The cross line fence has also been repaired.

Police.

The police are same as have been for some years past, viz: Mr. John H. Hartwell, Mr. P. J. Shean, and Mr. G.

Barry. The statistics below are from the report of Mr. Hartwell, as chief: —

Whole number of arrests,	89		
Males,		85	
Females,		4	
		—	89
Causes of Arrests:			
Drunkenness,		38	
Assault on an officer,		5	
Bastardy,		2	
Suspicious persons,		3	
Disturbing peace,		5	
Assault and battery,		12	
Insane,		1	
Stealing a ride,		5	
Stealing fruit,		2	
Illegal fishing,		2	
Disturbing public school,		2	
Illegal keeping liquors,		6	
Other arrests,		6	
		—	89

Licenses.

The majority of your Board feeling that the very small vote taken on this matter last spring was not a full expression of all the voters of the Town, and that the law left the matter, as before, to the discretion of the Board, they could not see their way clear to grant licenses; so that no licenses for the sale of intoxicating liquors have been granted.

Fire Department.

For items in regard to this department, we refer to the report of the chief engineer.

In accordance with a vote of the Town, four drinking fountains have been erected, as follows: one near the corner of Lake Street and Arlington Avenue, one at the junction of Warren Street and Broadway, one at the head of Bow Street, and one on the avenue near the Town House.

Appropriation,	$500 00
Expended,	499 72
Balance unexpended,	$0 28

In regard to the vote of the Town instructing the Selectmen to see what could be done to obtain better depot accommodations, we would say that the change in the management of the railroad caused a long delay; since that, we have had two consultations with the managers, and they give encouragement that they intend to furnish better accomodations in the spring, but their plans are not fully made.

Conclusion.

The Treasurer's report shows you the receipts and expenditures in detail.

We have kept within the appropriations for all departments, and there are no bills known to be due at this date that are unpaid or unprovided for.

Respectfully submitted,

HENRY MOTT,
WILLIAM H. ALLEN,
JAMES A. BAILEY,
Selectmen of Arlington.

Town of Wayland, 5 per cent. Bonds,	5,000 00
Town of Stoughton, 4 per cent. Bonds,	8,000 00
State of Massachusetts, 5 per cent. Bond,	1,000 00
Town of Hyde Park, 4 per cent. Notes,	10,000 00
City of Fall River, 4 per cent. Water Bond,	1,000 00
Town of Arlington Note on demand,	363 04
	$30,363 04

Respectfully submitted,

WILLIAM G. PECK,
A. D. HOITT,
WILLIAM H. ALLEN,
Commissioners of the Sinking Fund.

ARLINGTON, Dec. 31, 1881.

REPORT OF TRUSTEES OF PRATT FUND.

The Trustees of the Pratt Fund submit the following Report, for the year ending Dec. 31st, 1881:

Income.

Received one year's int. on $15,000, City of Cambridge Building Loan,	$900 00	
" one year's interest on $9,000 City of Cambridge Bridge Loan,	540 00	
" interest of Arlington Five Cents Savings Bank,	53 46	
		$1,493 46
Paid rent of safe in the Union Safe Deposit Vaults,		20 00
		$1,473 46
Paid Town Treasurer for Poor Widows' Fund,	$294 69	
Paid Town Treasurer for Public Library,	589 38	
Deposited in Arlington Five Cents Savings Bank, as a High School Fund,	589 39	
		$1,473 46

Investment.

City of Cambridge, Bridge Loan, sixes,	$9,000	
" " Building " "	15,000	
Deposited in Arlington Five Cents Savings Bank,	1,000	
		$25,000 00
High School Fund Income, deposited in Arlington Five Cents Savings Bank, with interest to Jan. 1, 1882,		4,045 02

Respectfully submitted,

NATHAN ROBBINS,
WILLIAM G. PECK,
JOHN P. WYMAN,
DAVID P. GREEN,
HENRY SWAN,
B. DELMONT LOCKE, *ex officio*,

Trustees of Pratt Fund.

ARLINGTON, Dec. 31, 1881.

REPORT OF WATER COMMISSIONERS.

In accordance with the recommendation of the Board, in their annual report for the year ending Dec. 31, 1880, no appropriation was made by the town, at the last March meeting, for increasing our filtering capacity at the reservoir. The summer months of the past season proved conclusively that we have not yet reached the point of being able to supply our citizens with filtered water throughout the year. Early in June the Board, with the desire to check, so far as possible, the great waste of water from irrigation and outside use, issued a circular, which was mailed to every taker, restricting the use of hose to certain hours of the day. The conditions of the circular were generally complied with. In all cases coming to the knowledge of the Board, in which the hours for use of water were disregarded, a second notice was sent, and for second offence the water was shut off.

On the northerly side of the reservoir, at a point commonly known as the "flats," some years since, it will be remembered, the Board constructed a short filtering gallery, springing a brick arch over the same, and connecting with the main gallery on the banks by tile pipe, laid with loose joints. The water passing through these loose joints cannot be regarded as filtered water; and yet during the last summer, although the main gallery on the northerly bank is two hundred and thirty feet in length and twelve feet wide at the base, at no time has the supply of filtered water been sufficient to warrant the closing of the gate between the flats, so called, and present

filter, so that in fact, under the existing arrangement, the town has received through its pipes no pure filtered water.

If our citizens now or in the near future shall insist upon a full supply of filtered water for domestic use, it remains for the town to decide to what extent it will make appropriations either for the enlargement of the present gallery or for the adoption of some other plan, which may be used in connection with the filter already constructed.

During the past year three meters have been attached where water is required for irrigation. The cost of meter and attachment has been paid by the taker. These meters have not been in use a sufficient length of time to test fully their practical results. The Board fixed, for the time being, the rate for water through meter at one and one half cents per hundred gallons, when the annual consumption amounted to one hundred dollars or more; and at two cents per hundred gallons when the annual consumption falls short of that amount. So far as we have been able to test these rates, they have not proved sufficiently remunerative. It is an open question to what extent the Board are justified in attaching meters. If the town shall vote, as claimed by some, to furnish these meters to the takers, and their use should become general, it would not only necessitate a large appropriation for the first cost, but the employment of a skilled mechanic and the maintenance of a repair shop equipped with all needed tools and appliances to keep them in working order. To the question, who shall be entitled to use of meters? it might be possible to offer them to all, first fixing an absolute price to be paid in advance, and then charging the excess of water used, if any, over the amount thus fixed at so much per hundred gallons. The Board are of the opinion that if the town shall vote to furnish meters to the citizens some such rule as we have suggested must be adopted, or the works will prove less remunerative than they now are.

The annual cost for repairs is a formidable item in our running expenses. Three leaks per month in the main pipes

being about the average. These bursts, to say nothing of the constant disturbance of the road-bed, especially in macadamized streets, swell our expenses. In these repairs more or less sand, gravel and small pieces of cement lining find their way into the pipes and through them by force of the water, until they lodge at the point of meter attachment. In one instance already, a meter became so clogged by these foreign substances as to become wholly inoperative, and was removed and another substituted. We are unanimously of the opinion that our entire tariff needs revision. No changes have been made in the rates since first adopted by the town. The annual rental received is about one half the amount of interest paid on our bonded debt. The town has appropriated without stint for water supply. Long since we reached the limit of indebtedness granted by legislative enactments. Whatever improvements are to be made hereafter must be included in the levy yearly collected by the taxgatherer. We are confident that a judicious revision of these rates would materially increase our revenue, lessen the amount to be appropriated year after year to pay interest on our bonds, and make a far better financial exhibit for the original outlay. Our tariff is lower than that of our neighboring cities and towns. The income is by no means proportionate to the cost. We have long ago outgrown these rates, adopted almost at the inception of the works. Usage has confined us to a beaten track. It is the part of the town to adopt new measures, that of your Commissioners to recommend them. Take for example the rates adopted by the town under the classification for stables. The closing paragraph reads: "The rates for stables include water for washing carriages *without* hose." Certainly it would be a difficult matter to find a single stable, using the town water, in which carriages are washed *without* hose.

Again, under the rules for hose, we find the following: "For hose of not over three-eighths inch orifice, used for washing windows, sprinkling streets (and the use of the same

shall be limited to one hour per day), not less than three dollars." Restrict the use of hand hose to washing windows and sprinkling streets, granting its use for no other purpose, and we venture the assertion that the revenue derived from hose would entirely disappear. The demand of our citizens for use of hose is not for windows or streets, but for lawns and flower beds. Under the last named rule, this minimum price, and that, too, with the widest latitude, has by a custom, as old as the works, been charged. Each succeeding Board has drifted into the ruts of its predecessor. A moment's reflection suffices to show that the rate for windows and streets should not be the same as for lawn irrigation.

We offer these examples by way of showing how imperative the necessity is of taking a new departure in the matter of revision of rates, and would suggest that at the annual March meeting the town should appoint a special committee to take into consideration the whole subject of water tariff and report at a subsequent meeting.

It may be urged that under Sec. 16 full authority is granted the Board to make such changes in the rates as their best judgment may dictate. The last part of Sec. 16 is as follows: "And the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases, in their judgment, the interests of the town shall require." But the instances we have cited are not particular cases, but general requirements, and demand specific rates. The revision of these rates will require no little thought, to the end that whatever rules may be adopted they should favor no particular class, but bear equally as possible upon all. Any change, however slight, will engender conflict of opinion. If under the vagueness of present rules the Board should make these changes on the ground that this power is implied, if not expressed, in Sec. 16, many would doubtless claim the act as an arbitrary assumption of authority. We are, therefore, of the opinion that if the town deems it desirable to revise the present rates, it would be the better plan, certainly the one which

will give rise to the least feeling, that the committee appointed should be selected entirely outside of the present Board.

The Slocum mill was destroyed by fire March 21st. The fire was probably of incendiary origin. The mill was insured for $2500; the amount of insurance has been paid in full. The Commissioners sold the old iron for $30. The mill was under lease to Daniel Cahlane at a rental of $480 per annum. The dam is uninjured. It remains for the town to decide what disposal, if any, shall be made of this property.

A petition was presented early in the fall asking for the extension of the main pipe through the private way, running at right angles from the terminus of Academy street. No appropriation having been made for pipe extension, we declined the petition. The Board felt that the interests of the town warranted the extension, and though from lack of funds we could make no move in the matter, we told the petitioner that if he would have the work done under the supervision of the superintendent of the town works, giving the usual guarantee of six per cent. interest on the cost of trenching and laying pipe, with the right of ingress and egress to repair the same, waiving all claims for damages in case said private way should hereafter be accepted as a public street, the Commissioners would recommend the town to make an appropriation sufficient to pay the cost of extension. The pipe has been laid for a distance of about four hundred feet, the proper guarantee given, and two new takers are now supplied with water at a rental paying more than twelve per cent. on the cost.

At the November meeting the town made an appropriation of four hundred and fifty dollars:—

Appropriation,	$450 00
Expended,	340 94
Balance unexpended,	$109 06

With the above exception there has been no extension of main pipe during the year, nor has there been any outlay at

the reservoir except the customary removal of grass and weeds from the banks.

For detailed statement of income and expenditures we refer to report of the Treasurer herewith submitted.

Uses for which water is supplied, as reported by the Registrar :—

ARLINGTON, Dec. 31, 1881.

B. DELMONT LOCKE, *Treasurer.*

Sections 15 and 16 of Rules of Water Works.

SECT. 15. The following rates shall be charged annually for the use of water, namely :—

DWELLING HOUSES.

Occupied by one family, for the first faucet,	$5 00
For each additional faucet, to be used by the same family,	2 00
Where a house is occupied by more than one family, and less than four, one faucet only being used for each family,	4 00
Where a house is occupied by four or more families, and but one faucet is used by all, for each family,	3 50
Where a house is occupied by more than one family, the highest rates will be charged for each family having the water carried into their part of the house.	
For the first bath-tub,	5 00
For each additional bath-tub,	3 00
For the first water-closet,	5 00
For each additional water-closet,	3 00
For hopper water-closets, special rates will be made.	
Where bath-tubs or water-closets are used by more than one family, for each family,	4 00
Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both ; *provided*, that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00

BOARDING HOUSES.

For the first faucet,	$10 00
Each additional faucet,	2 00
Water-closet or bath-tub, when used by boarders,	10 00
Each additional bath-tub or water-closet,	3 00

STORES, OFFICES, WAREHOUSES, ETC., NOT INCLUDING MANUFACTORIES OR WORKSHOPS.

First faucet,	$5 00
When two or more tenants are supplied from the same faucet, each,	4 00
Water-closet used by occupants of one tenement only,	5 00
When used by occupants of more than one tenement, for each tenant,	4 00

For each additional faucet or water-closet, half of above rates will be charged.

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water,	$5 to $25

HOTELS.

For each bed for boarders and lodgers,	$3 00
For each bath-tub in a hotel,	10 00
For each water-closet in a hotel,	10 00

PUBLIC BATHS.

For one tub in public bath-house,	$10 00
For each additional bath-tub,	5 00

For one water-closet in public bath-house,	10 00
For each additional water-closet,	3 00

STABLES.

Private Stables.	For the first horse,	$5 00
"	For each additional horse,	4 00
"	For one cow,	2 00
"	For each additional cow,	1 00
Livery, club, and boarding stables.	For each horse,	3 00
Car and omnibus stables.	For each horse,	2 00
Truck and cart stables.	For each horse,	2 00

Provided, that in no case shall any stable be charged less than $5.

The rates for stables include water for washing carriages without hose.

HOSE.

For hose of not over three-eighths inch orifice, used for washing windows, sprinkling streets (and the use of the same shall be limited to one hour per day), not less than $3 00

STEAM BOILERS.

For each boiler in use not over twelve hours a day, for each horse-power, 6 00

BUILDING PURPOSES.

For each cask of lime or cement, 6 cents

HYDRANTS.

Hydrants set by the town at the rate of $28 each, allowing one hydrant to each 200 inhabitants.

SECT. 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners; and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases, in their judgment, the interests of the town shall require.

AUDITORS' REPORT.

The undersigned hereby certify that they have audited the books and accounts of B. DELMONT LOCKE, as Treasurer and Collector of the Town of Arlington, for the year 1881; also as Treasurer for the Arlington Water Works for the same year, and find the same correct, with vouchers for all payments, and the balances of cash to be as stated by him.

ABEL R. PROCTOR,
REUBEN W. HOPKINS, } *Auditors.*

ARLINGTON, Jan. 3, 1882.

ANNUAL REPORT

OF THE

CHIEF ENGINEER OF THE ARLINGTON FIRE DEPARTMENT.

To the Selectmen of Arlington:

GENTLEMEN,—In accordance with custom and duty, I herewith present my report of the Fire Department for the past year, bringing to your notice only such matters as I deem of importance and worthy of your attention.

MEMBERSHIP.

The membership of the department is the same as that of last year.

The pay of the men has been raised to the old standard of thirty-five dollars per year, per man, and has much to do with keeping the ranks filled with better men than formerly. It has been our sad duty to follow to their last resting place the remains of our brother fireman, Thos. Duffey.

FIRES AND ALARMS.

The department has been called to five fires in town and one in Belmont.

Jan. 29th, in house owned by Hodgdon & Damon on

Arlington Avenue, occupied by J. G. Fisher. Insurance $4000. Loss $650. Cause unknown.

May 30th, fire in house of Abel R. Proctor on Broadway. Insurance $4000. Loss $100. Cause, struck by lightning.

July 30, fire in house owned by Patk. Keefe and occupied by John Breen. Insurance $300. Loss $40. Cause, lighting fire with kerosene oil.

Oct. 14, barn of Henderson Bros. on Teel Street. Insurance $500. Loss $800. Cause unknown.

Dec. 19th, unoccupied house owned by estate John Nolan on Warren Street. Insurance $1200. Loss $1500. Cause unknown.

HOSE.

The hose belonging to the department is now in better condition than at any time since I have been connected with it. At the annual meeting in March last, the town appropriated one thousand dollars for the purchase of hose.

After visiting other departments and satisfying myself that the "Jacket" hose was superior to any other, we contracted with the Chelsea Hose Co. for eleven hundred feet of the same. We have 700 or 800 feet of poor leather hose on hand, some of which has been condemned.

I think that at the end of each year, when the appropriations will admit of it, there should be a small quantity of hose purchased, thereby preventing any heavy outlay at any one time.

INCREASED FACILITIES.

I would again call your attention to the unprotected condition of the outskirts of the town, but will make no suggestion at this time. I again call your attention to the imperfect system of fire alarms, and think all citizens will agree with me that there should be some change for the better. When fires

occur in the outskirts of the town we seldom get an alarm until the light from the burning buildings is seen in the centre. I know of nothing better than a regular fire alarm, and think the time has arrived when a move in that direction should be made. It will save the department from rallying when the bells ring for parish meetings, as has been done in the years past.

BUILDINGS.

The house of Hose 2 is in the same condition as was represented in my last report, and but a little has been expended on the same.

The Wm. Penn house needs new floors, which has already been called to your notice.

APPROPRIATION.

I would recommend an appropriation of $2500 to meet the expenses for the ensuing year.

PERSONAL RECOGNITION.

In closing, I desire to express my thanks to my assistants and the members of the department for the promptness with which they have performed their duties. To the police also for valuable services. To G. W. Austin for promptness in furnishing horses for Hose 2. To Chiefs, Hopkins, of Somerville, and Casey, of Cambridge, for apparatus and aid, and to S. G. Damon, Esq., for refreshments furnished at the fire of Jan. 29, and also after our long march on May 30. "Kind deeds like kind words never die."

Respectfully submitted.

CHARLES GOTT,

Chief Engineer.

REPORT

OF THE

TRUSTEES OF THE PUBLIC LIBRARY.

The Catalogue-Supplement, promised in our last report, was prepared during the past summer and issued early in the fall. It comprises additions made to the Library since 1876, and will be found to contain very nearly half as many titles as the large Catalogue itself, which was published that year and included all the books then in the Library. To all who may be interested in learning something of the amount and quality of the Library work during the past five years, an examination of this Supplement is recommended.

The selection of so many books has been a matter of no little care and labor; among the multitudes of new publications it is not always easy to decide what to choose and what to reject. Sometimes the most valuable books are those for which there is least demand; while on the contrary the most popular are often the most ephemeral. Between these two extremes there is a large class of works which are both entertaining and instructive,— biography, history, travels, popularized art and science, and fiction, which may be as true to life as history itself. Of this important medium class our new purchases will be found chiefly to consist.

Fiction is necessarily a large element in this as in other popular libraries. And it is a useful, as well as a delightful

element. At the same time an exclusive or excessive mental diet of novels is deleterious, especially to the young; and parents are earnestly counselled to see that their children do not pervert what should be a wholesome stimulant into a means of intellectual dissipation. With a little care and oversight from sympathetic elders the young may be induced to add to their lists more and more thoughtful works of literature, and to read fewer and better books.

The entire appropriation made for our use by the town last year was exhausted in meeting current expenses. The large balance in our favor for this year, shown by the Town Treasurer's accounts, consists mainly of interest on the Pratt fund, received on the last day of December, 1881.

By the new system of delivering books the Librarian was enabled promptly to trace every volume given out between July, 1880, and July, 1881, and not returned when due. It required much persistent endeavor in some cases to recover the books of delinquent borrowers, but, as will be seen by the Statement given below, only one book was absolutely lost. That was traced to the hands of a borrower who left the town but forgot to leave the book behind him. It will be seen that the fines received by the Librarian from the holders of overdue books have become an important item in our annual accounts.

Through the courtesy of the editor, we continue to print our bi-monthly lists of new books in the columns of the "Arlington Advocate." These lists should be carefully preserved.

J. T. TROWBRIDGE,

For the Trustees.

ARLINGTON, January, 1882.

LIBRARIAN'S STATEMENT.

Number of volumes in the Library, July, 1881	7,496
Number of magazines taken, weekly and monthly	9
Number of books added in 1881	707
Number given out	25,852
Number of magazines given out	715
Largest number of books and magazines delivered in one day	250
Number not returned to the Library from July, 1880, to July, 1881	1
Registration of book borrowers during the year	258
Whole number of registered book borrowers	1,590
Fines paid to the Town Treasurer in 1881	$81.86

LIZZIE J. NEWTON,
Librarian.

SCHOOL COMMITTEE'S REPORT.

To the Town of Arlington:

REFERRING to the reports of other years relative to our public schools, the Committee have liberally praised our present graded system and its benefits. In our last annual report the condition of the schools and the merits of their teachers were fully examined. During the last year they have maintained such a prosperous condition that our report may properly be a brief one. The excellence of our graded system is still maintained and improved by our excellent corps of teachers. The scholars of the higher grades are manifesting the benefits of our course of instruction, and we believe that the parents are showing a due appreciation of its results. We are happy to report that the force of our excellent teachers of last year remain unchanged with one exception. Miss Abbie H. Morrill, of the Russell Primary department, resigned last June, after a term of faithful and meritorious service, and was succeeded by Miss E. J. D. Kennard.

The average attendance of the scholars has been good. Through the zealous services and kind intercession of Mr. Clay and Miss Simmons, of the High School, Dr. Benjamin E. Cotting has generously donated the sum of one thousand dollars, to be held by Mr. Clay and expended by him and Miss Simmons in their discretion for the purchase of books of reference and works of standard authors for a library for the Cotting High School.

The Committee feel that this gift will be of great benefit,

and that the gratitude of the town is due to its donor, through whose kindness the nucleus of a library for the special benefit of our schools has been established.

In closing, we feel that the schools are in a condition to challenge the criticism of the town, and that in a greater degree than ever they and their teachers merit the public confidence and estimation they have heretofore obtained.

JOHN H. HARDY,
Chairman.

SELECTMEN'S REPORT.

REPORT of the Selectmen, for the year ending Dec. 30, 1882 :—

Highways.

Appropriation,	$9,000 00
Sidewalks,	500 00
Received for labor, concreting, watering streets, etc.,	1,685 63
	$11,185 63
Expended,	10,804 72
Balance unexpended,	$380 91

The following statistics are taken from the report of the Superintendent of Streets :—

Total number of loads of gravel and stone used upon streets and sidewalks and distributed as follows :—

Arlington Av.,	365 loads	Eastern Av.,	134 loads
Academy Street,	12 "	Franklin Street,	126 "
Appleton "	40 "	Grove "	12 "
Brattle "	85 "	Lake "	12 "
Broadway,	27 "	Lowell "	8 "

Medford Street,	3,409	loads	Summer Street,	310	loads
Mystic "	962	"	Water "	8	"
N. Union "	6	"	Walnut "	46	"
Park Av.,	360	"	Winter "	16	"
Pleasant Street,	61	"	Warren "	338	"
River "	118	"			
Total,				6,455	loads

Broadway

Is in good condition, except the portion from its junction with Warren street to Winter street.

Bow Street.

This street remains in poor condition, still awaiting some action by the County Commissioners.

Eastern Avenue.

A portion has been repaired the past season, and other portions will need repairing the ensuing season.

Franklin Street

Has been coated with gravel and rolled the past season, and is in good condition.

Medford Street.

This street has been graded and macadamized the past year, from the cemetery to Medford line. This was the most expensive work upon any one street, requiring a large amount of material (3409 loads), which had to be hauled a long distance. Sidewalks were also graded the entire length.

Mystic Street.

That portion of this street from the residence of John S. Crosby to the estate of William Stowe has been repaired

with stone and gravel, and is in good condition. Some other portions have been coated with gravel.

Pleasant Street.

But little has been done on this street the past year.

Park Avenue.

Some parts of this avenue have been regravelled the past season.

River Street.

Some gravel has been used this season to fill a low portion of this street.

Warren Street

Has been coated with gravel the entire length and is in fine condition.

Sidewalks.

Considerable material has been placed upon walks in different parts of the town.

Guide Boards.

Several new boards have been placed in position and some old ones repaired and re-painted.

Bridges and Culverts.

The River street bridge has been re-planked the past year.

Two brick culverts have been put across Medford street, several old stone culverts have been taken up and relaid, and eight water grates have been set.

Railings and Bank-walls.

Quite a sum has been expended in new railing for embankments on Mystic, Dudley, Brattle and Grove streets. The bank-wall on Mystic street, adjoining the property of the late James Wyman, has been relaid. The wall at each end of the Nash estate has been moved back, enabling us to grade the sidewalk. A new bank-wall has been put in on Grove street adjoining the property of Jere. Crowley.

Stone Crusher and Stone.

The engine and boiler are in good condition. The crusher is getting considerably worn, but may possibly stand for another season.

We have quite an amount of stone piled in the yard ready for crushing, but not enough for the requirements of another season.

Teams and Tools.

The teams and tools are in as good condition and of as much value as they were a year ago. A new Pennock road machine has been purchased the past year, and has proved to be satisfactory for the purpose for which it has been principally used, namely, scraping gutters.

Watering Streets.

The same routes have been watered as last year.

Almshouse.

Mr. George W. Austin and wife have had the care and management of the Almshouse during the past year, and have performed their duties in a very satisfactory manner, as the neatness and good order of everything in and about the premises will at all times testify.

Amount of appropriation,	$1,700 00
Received for board, products, etc.,	445 99
	$2,145 99
Expended for supplies, etc.,	2,142 19
Balance unexpended,	$3 80

Whole number of inmates for the year,	12
Present number,	9
Number of tramps fed and lodged,	97

The furniture and fixtures in the house are in good condition, and of the full value of a year ago.

A new cement-lined iron pipe has been laid the past year, to conduct the water to the house and stable from the spring, at an expense of about three hundred dollars, thus giving an ample supply of pure water.

Outside Poor.

Appropriation,	$2,000 00
Credits,	31 00
	$2,031 00
Expended,	1,980 93
Balance unexpended,	$50 07

It will be noticed that there are four persons at insane asylums, maintained wholly at the town's expense.

Street Lamps.

There are the same number of lamps for the burning of gas as last year, viz., fifty-three. There have been three new ones erected at the Heights, one on Arlington avenue, thir-

teen on Lake street, and fifteen on Medford street, for the burning of gasoline, making eighty-six in all. Four of those on Medford street, viz., one in front of the school-house and three in front of the cemetery, were paid for by the town; the others, by the abutters. The posts are of iron, with copper-trimmed lanterns. The gasoline lamps have been lighted and kept in repair by the Globe Gaslight Company on contract. The gas lamps have been lighted by Mr. John Roden, employed by the town. All the posts have been painted and the lanterns glazed and painted.

Coal.

The coal was furnished for the town by Mr. Warren A. Peirce, he being the lowest bidder among several others, for the sum of $5.80 per ton, and sixty cents extra for Lehigh, including housing.

Cemeteries.

The cemeteries have been under the care of Mr. F. Lemme. Some flowering and foliage plants have been set. A new avenue, about 1800 feet in length, by 20 feet in width, has been built by removing the loam and crowning with gravel. We would recommend that a row of trees be set on each side of this avenue the coming spring; also at other places on the easterly part of the cemetery. We find that in the older part of the cemetery the trees have grown so large that they interfere very much with each other's growth. We recommend the removing of some of them, also the regravelling of most of the avenues.

Police.

The same officers have served the town as police as for several years past, viz., Mr. John H. Hartwell, Mr. P. J. Shean and Mr. G. Barry. The following is the report of Mr. Hartwell as Chief: —

To the Board of Selectmen:

GENTLEMEN,—I have the honor to make the annual Police report for the year ending December 31, 1882, and offer such suggestions as in my opinion are for the welfare of the town.

The regular force consists of three men, one day and two night officers. The night officers report for duty at 7 P. M., and remain on duty until 4 A. M., from the first of April until the first of October, and until 5 A. M., from the first of October until the first of April. The officer doing day duty, who also has charge of the Town House, is at the Station at 6.30 A. M., and is on duty until 10 P. M., and oftentimes until later. I would call the attention of the citizens to the fact that another night man be appointed, for this reason, as after your day officer leaves for home one of the night officers has to remain at the Station, so that one night the upper part of the town is without any officer at all, and the next the lower part of the town is without one, and there is really no officer for the Pleasant street district at all. We have had but two Special officers the past year who were put on duty only when required or in cases of emergency. If the town should not think it best to appoint another regular officer, there should be more Specials to be used under the direction of the Selectmen and Chief.

I would call your attention to the Police department. The officers' room and chief office is in the basement of the Town House, in the same room in which the lock-up is situated. It is low and ill-ventilated, partly under ground and very unpleasant, especially so when there are any persons locked up. A great many people who call there will not come in at all, but prefer to do their business out of doors, especially if any one is locked up there. I would propose taking the room now occupied by the jeweller. A door could be cut through so as to connect with the lock-up below. I would also call your attention to the fact that there should be more

cells; there are only two and I might say only one, as the pipe which conveys the heat up into the hall passes right through one of the cells, so that it is hardly safe to put any one into it, and by making the change I have referred to, there could be more cells put into the same room now occupied as an office and cell-room.

With these few suggestions, which I think it would be well for the town to consider, I will now give the number of arrests and other work done by the Police.

Whole number of arrests,	108		
Males,		93	
Females,		15	
		—	108
Causes of Arrests:			
Common drunkard,		1	
Drunkenness,		18	
Assault and battery,		25	
Keeping liquor with intent to sell,		8	
Liquor nuisance,		1	
Disturbing peace,		12	
Larceny,		8	
Assault on officer,		8	
Insane,		1	
Disturbing public school,		1	
Truancy,		1	
Trespass,		5	
Evading car fare,		1	
Malicious mischief,		3	
Threatening,		1	
Receiving stolen property,		1	
Other arrests,		13	
		—	108

The department has attended all fires, rendered assistance in thirteen accidents, cared for eight stray teams, returned

four stray children to their homes, and investigated thirty-seven cases which were remedied without prosecution and served thirteen search warrants for liquors. 110 tramps have been lodged in the Station and Almshouse.

JOHN H. HARTWELL, *Chief.*

Licenses.

At the last annual Town Meeting it was voted to grant licenses to sell intoxicating liquors. In accordance with that vote, there have been seven licenses granted, three of the first class, two of the third class, and two of the sixth class, as follows: —

George Russell, 1st class license, fee,	$250 00
Chas. S. Jacobs, Jr., 1st class license, fee,	250 00
Elizabeth Steinkrauss, 1st class license, fee,	250 00
M. A. Richardson & Co., 3d class license, fee,	150 00
Thomas McCue, 3d class license, fee,	150 00
Davies Dodge, 6th " " "	1 00
O. W. Whittemore, 6th class license, fee,	1 00
Total amount received,	$1,052 00
Deduct one quarter paid to the State,	263 00
Leaving a balance in the Town Treasury,	$789 00

Town Debt.

It will be seen by reference to the Treasurer's report that $30,000 of the debt was paid in 1882, and we would call the attention of the town to the fact that $47,000 of debt falls due in 1883, for which some provision must be made.

Town Clock.

After careful inquiry in regard to obtaining a new clock for the town, your Selectmen made a contract with the "E. Howard Watch and Clock Company" to furnish one, all complete, and in good order, and enclosed in a closet in the tower of the Unitarian church for the sum of $475. Appropriation $500.

Fire Department.

As heretofore, we refer you to the report of the Chief Engineer.

Conclusion.

For the receipts and expenditures in detail, reference may be had to the Treasurer's Report.

Respectfully submitted,

HENRY MOTT,
HENRY J. LOCKE,
SAMUEL E. KIMBALL,
Selectmen of Arlington.

REPORT OF COMMISSIONERS

OF THE

SINKING FUND.

The Commissioners of the Sinking Fund make the following Report, for the year ending December 31, 1882 :—

Cr.

Amount received 1 year's interest to Jan. 1, 1883, on $5,000, Arlington Water Scrip, at 5 per cent.,	$ 250 00	
Amount received 1 year's interest to Jan. 1, 1883, on $10,000, Town of Hyde Park Notes, at 4 per cent.,	400 00	
Amount received 1 year's interest to Aug. 1, 1882, on $1,000, Fall River Water Bond, at 4 per cent.,	40 00	
Amount received 1 year's interest to Aug. 10, 1882, on $8,000, Town of Stoughton Bonds, at 4 per cent.,	320 00	
Amount carried forward,		$1,010 00

Amount brought forward,		$1,010 00
Amount received 6 months' interest to July 1, 1882, on $1,000, State of Massachusetts Bond, at 5 per cent.,		25 00
Amount received 6 months' interest to April 1, 1882, on $5,000, Town of Wayland Bonds,		125 00
Amount received of Town of Arlington, loan of Dec. 31, 1881,		363 04
Amount interest on the same, 7 months, 1 day, at 5 per cent.,		10 64
Amount received proceeds of sales by auction, by R. L. Day & Co., as follows:		
$5,000, Town of Wayland Bonds, at 105,	$5,250 00	
5 mos., 21 days accrued interest, at 5 per cent,	118 75	
	$5,368 75	
Less commission,	6 25	
		5,362 50
$1,000, Massachusetts 5's, at 101⅛,	$1,011 25	
2 mos., 21 days accrued interest,	11 25	
	$1,022 50	
Less commission,	2 50	
		1,020 00
$8,000, Town of Stoughton 4's, at 100¼,	$8,020 00	
Amounts carried forward,	$8,020 00	$7,916 18

Amounts brought forward,	$8,020 00	$7,916 18
1 mo., 12 days accrued interest,	37 33	
	$8,057 33	
Less commission,	10 00	
		8,047 33
Amount received from Treasurer of Town of Arlington, appropriation of March 16, 1882,		14,055 39
Amount interest on the same to Aug. 1, 4 mos., 16 days, at 4½ per cent.,		238 94

Dr.

Amount paid Union Safe Deposit Vaults, rent of safe,	$10 00	
Amount paid town of Arlington, to pay note to Plymouth Savings Bank,	30,000 00	
Amount loaned Town of Arlington, on demand,	247 84	
	$30,257 84	$30,257 84

Investment.

Town of Arlington, 5 per cent. Water Scrip,	$5,000 00
Town of Hyde Park, 4 per cent. Notes,	10,000 00
Amount carried forward,	$15,000 00

Amount brought forward,	$15,000 00
City of Fall River, 4 per cent. Water Bond,	1,000 00
Town of Arlington Note, on demand	247 84
	$16,247 84

Respectfully submitted,

WILLIAM G. PECK,
A. D. HOITT,
WILLIAM H. ALLEN,
Commissioners of the Sinking Fund.

ARLINGTON, Dec. 30, 1882.

REPORT OF TRUSTEES OF PRATT FUND.

THE Trustees of the Pratt Fund submit the following Report, for the year ending December 31, 1882 :—

Income.

Received one year's int. on $15,000, City of Cambridge Building Loan, at 6 per cent.,	$900 00	
" one year's int. on $9,000, City of Cambridge Bridge Loan, at 6 per cent.,	540 00	
" interest of Arlington Five Cents Savings Bank,	53 46	
		$1,493 46
Paid rent of safe in the Union Safe Deposit Vaults,		20 00
		$1,473 46

JOHN P. WYMAN,
DAVID P. GREEN,
HENRY SWAN,
B. DELMONT LOCKE, *ex officio*,

Trustees of Pratt Fund.

ARLINGTON, Dec. 30, 1882.

REPORT OF WATER COMMISSIONERS.

In our annual report for the year ending Dec. 31, 1881, the Board unanimously recommended to the town the appointment of a special committee, whose duty should be the revision of existing water rates. At the annual Town Meeting in March, a committee was appointed to act with your commissioners relative to changes in the water tariff.

The committee convened several times during the year, visited the reservoir, compared the present rates with those of other towns and cities, and after a somewhat protracted discussion of the whole matter, agreed upon certain changes in the tariff, which, if adopted, would have added very materially to the income from the works, and at the same time made the cost of the water to the individual taker no higher than the price charged in other towns and cities. At the November Town Meeting, the committee made their report in writing, recommending certain changes in the water rates, and discussing at length certain other matters, relative to increased filtering capacity and the leakage at the dam, near the gate-house. The meeting was poorly attended, and the town, by a decisive vote, refused to adopt, so far as any changes in rates were concerned, the suggestions of the committee. The Board would take this opportunity to say, that, notwithstanding the negative vote of the town, this

matter is an important one, and one which sooner or later will again force itself to the front.

The protracted drought of last season proved conclusively that the quantity of water stored in the reservoir and great meadows is amply sufficient to supply, without stint, existing wants. Our whole trouble lies in the quality. During the warm season, the water in the reservoir became turgid, exhaling a very perceptible and nauseating odor, while the surface, especially near the shore and the inlet, was covered with a green scum. The Board at once removed a flash-board from the dam at the great meadows, thus letting into the reservoir sufficient water to cause an overflow at the waste-way. The result was that in less than twenty-four hours the water of the reservoir became as clear and pure as at any time in the fall months. The same trouble reappeared later, but by the prompt application of the same remedy, to wit, allowing water to flow in from the meadows, we succeeded in keeping the main reservoir in a comparatively pure state. At the time the drought was broken we had let in from the great meadows, all the water possible, so that had the dry spell continued, we should have been powerless to prevent any increase of impurity.

The problem of obtaining additional filtering capacity can be solved only by experiment. Given a good filtering gravel, and plenty of it, the solution is not difficult; but to walk the surface, and be able to find out the character of the soil ten or twenty feet beneath your feet, without experimental excavation, is beyond the pale even of science. Rumor reaches us of several plans which have been formulated on the part of our citizens, which, if carried out, would certainly give all the water the town desires for all purposes, yielding a continuous supply of filtered water for our twelve-inch pipe, every month in the year, and that too at an estimated expense from one to three thousand dollars. If these rumors mean anything, and can be supported by

proper guarantors on the part of the individual or individuals, contracting to accomplish the above undertaking, it would in our judgment be for the highest interest of the town, to appropriate five or six thousand dollars for so valuable a work, and to close the contract without delay.

During the past year, with a view if possible of recommending to the town some feasible plan for additional supply, we made an excavation near the margin of the great meadows, at a point above "Slocum's" mill, so called, digging a ditch to drain the surplus water into the mill pond. The supply from this excavation was limited. At a depth of four or five feet we struck blue gravel, and at once abandoned the experiment. Appearances indicate that a belt of blue gravel extends across the valley from the hills on either side, thus forming an almost impervious natural dam, which holds back the waters of the great meadows.

We have also made excavations at the foot of the dam, near the gate-house. This work was commenced so late as to hardly warrant the assertion that we have found a supply. It would seem, however, from the rapidity with which these holes filled, the character of the soil, and the quality of the water, that at least a very material supply might be obtained from this quarter.

If, by further excavation in the spring, the apparent supply from this quarter should be more certainly determined, we believe it would be for the interest of the works, to construct a filtering gallery at this point, which could be done at a cost roughly estimated of about four thousand dollars. The expenditure already of more than three hundred thousand dollars makes it imperative that the town should do something for the purity of its supply. We cannot afford to stop where we are, and have too much at stake to abandon the progress. Certain it is, that increased supply can be attained only by additional outlay. Our citizens must remember that the town is already pledged to an old and unsuccessful

venture, and not standing on the threshold of a new undertaking. If we are satisfied with simply a domestic supply, strictly speaking—a supply for the family alone, without the use of hose even for lawns or gardens—then by cementing all loose joints of the pipes, connecting the main filter with the smaller filter in the reservoir, we shall reach that end: but if we desire to filter sufficient water to allow its use to families through hose on their premises, also its use on forcing beds and in wash-houses, then we must increase materially our present capacity. If in addition to above you add field irrigation, then the town must make appropriations with lavish hand.

The general condition of the works compare favorably with the preceding year. The Board has cleared the margin of the reservoir, and painted all of the hydrants. The breakage of main pipe is still a large factor in the expenditures of the works.

For detailed report of income and outlay for the past twelve months, we respectfully refer to the statements of the Water Registrar, herewith submitted.

Uses for which water is supplied, as reported by the Registrar:—

Families	supplied,	414
Stores and shops	"	16
Private stables	"	44
Livery stables	"	2
Horse railroad stable	supplied,	1
Steam railroad depot	"	1
Hand hose	"	137
Hotels	"	3
Churches and societies	"	7
Town House	"	1
School-houses	"	3
Hose-houses	"	2

Private fountains	supplied,	2
Irrigation	"	42
Cemetery	"	1
Savings Bank building	"	1
Stone crusher	"	1
Hydrants	"	98
Water Motor	"	1

Stock and tools on hand, as reported by the Superintendent:—

1 second-hand street hydrant.
3 street service boxes.
594 lbs. cast-iron pipe.
2 hydrant feet.
2 2 1-2 inch hydrant nipples.
3 2 1-2 " " caps.
291 lbs. street boxes.
2 4 1-2 feet frost cases.
2 hydrant centre rods.
2 rubber gaskets.
8 " valves.
14 feet 6 inch cement-lined pipe.
7 " 8 " " " "
42 " 4 " " " "
3½ " 12 " " " "
28 lbs. Manilla rope.
5 yards rubber cloth.
2 eight by four cast-iron branches.
56 feet 6 inch cement drain pipe.
5 " 6 " " " " branches.
5 " 4 " " " " "
1 snow shovel.
1 hoe.
1 rake.

3 lanterns.
5 gate wrenches.
1 hydrant wrench.
23 lbs. of oakum.
3 four inch clamp sleeves.
7 six " " "
Lot of old iron.
1 Gem meter.
1 cask Portland cement.

ARLINGTON, Dec. 30, 1882. B. DELMONT LOCKE, *Treasurer.*

Sections 15 and 16 of Rules of Water Works.

SECT. 15. The following rates shall be charged annually for the use of water, namely :—

DWELLING HOUSES.

Occupied by one family, for the first faucet,	$5 00
For each additional faucet, to be used by the same family,	2 00
Where a house is occupied by more than one family, and less than four, one faucet only being used for each family,	4 00
Where a house is occupied by four or more families, and but one faucet is used by all, for each family,	3 50
Where a house is occupied by more than one family, the highest rates will be charged for each family having the water carried into their part of the house.	
For the first bath-tub,	5 00
For each additional bath-tub,	3 00
For the first water-closet,	5 00
For each additional water-closet,	3 00
For hopper water-closets, special rates will be made.	
Where bath-tubs or water-closets are used by more than one family, for each family,	4 00
Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both ; *provided*, that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00

BOARDING HOUSES.

For the first faucet,	$10 00
Each additional faucet,	2 00
Water-closet or bath-tub, when used by boarders,	10 00
Each additional bath-tub or water-closet,	3 00

STORES, OFFICES, WAREHOUSES, ETC., NOT INCLUDING MANUFACTORIES OR WORKSHOPS.

First faucet,	$5 00
When two or more tenants are supplied from the same faucet, each,	4 00
Water-closet used by occupants of one tenement only,	5 00
When used by occupants of more than one tenement, for each tenant,	4 00
For each additional faucet or water-closet, half of above rates will be charged.	

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water,	$5 to $25

HOTELS.

For each bed for boarders and lodgers,	$3 00
For each bath-tub in a hotel,	10 00
For each water-closet in a hotel,	10 00

PUBLIC BATHS.

For one tub in public bath-house,	$10 00
For each additional bath-tub,	5 00

For one water-closet in public bath-house,	$10 00
For each additional water-closet,	3 00

STABLES.

Private Stables.	For the first horse,	$5 00
"	For each additional horse,	4 00
"	For one cow,	2 00
"	For each additional cow,	1 00
Livery, club, and boarding stables.	For each horse,	3 00
Car and omnibus stables.	For each horse,	2 00
Truck and cart stables.	For each horse,	2 00

Provided, that in no case shall any stable be charged less than $5.

The rates for stables include water for washing carriages without hose.

HOSE.

For hose of not over three-eighths inch orifice, used for washing windows, sprinkling streets (and the use of the same shall be limited to one hour per day), not less than	$3 00

STEAM BOILERS.

For each boiler in use not over twelve hours a day, for each horse-power,	$6 00

BUILDING PURPOSES.

For each cask of lime or cement,	6 cents

HYDRANTS.

Hydrants set by the town at the rate of $28 each, allowing one hydrant to each 200 inhabitants.

SECT. 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners; and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases, in their judgment, the interests of the town shall require.

AUDITORS' REPORT.

THE undersigned hereby certify that they have audited the books and accounts of B. DELMONT LOCKE, as Treasurer and Collector of the Town of Arlington, for the year 1882; also as Treasurer for the Arlington Water Works for the year 1882, and find the same correct, with vouchers for all payments, and the balances of cash as stated by him.

DAVID P. GREEN,
A. WILLARD DAMON, } *Auditors.*

ARLINGTON, Jan. 16, 1883.

ANNUAL REPORT

OF THE

CHIEF ENGINEER OF THE ARLINGTON FIRE DEPARTMENT.

To the Selectmen of Arlington:

GENTLEMEN,—In compliance with the rules and regulations, I herewith present my report of the Fire Department for the past year.

MEMBERSHIP.

The membership of the department is the same as last year. I recommend that three more men be added to the Hook and Ladder Truck, making the company ten men, instead of seven as at present.

FIRES AND ALARMS.

The department has been called out fourteen times during the last year. There has been but one serious fire, that of Mrs. Wm. J. Niles, on Mystic street, consisting of barns,

out-buildings and carriages, which were well covered by insurance.

There have been several small fires, but by the prompt arrival of the department they were extinguished before any serious loss was sustained.

Total Losses from fires,	$3,265 00
" Insurance,	$10,425 00

HOSE.

The hose in the department is in very good condition, with the exception of the leather hose. We have condemned about 500 feet. We shall need more hose soon. I think there should be a small quantity purchased each year.

BUILDINGS.

I do not think your attention need be called to the condition of the house of Hose No. 2, after your inspection in the summer.

The "Wm. Penn" House is in good repair, with the exception of some painting needed on the inside.

I recommend that the tower of this house be raised ten feet, and a bell be purchased for the same. Your attention was called in my last report to the imperfect system of fire alarms; but I know that this town, like many others, will not act until they have passed through the fire ordeal.

APPARATUS.

The Hook and Ladder Truck needs painting very much. Hose Carriage No. 3 is in very good condition at present.

I think that Hose Carriage No. 2 had better be exchanged for a light horse carriage. The carriage is old and will need some extensive repair if kept in use.

APPROPRIATION.

I would recommend an appropriation of $2500 to meet the expenses of the fire department for the ensuing year.

PERSONAL RECOGNITION.

In closing, I desire to express my thanks to you for your generous co-operation; to my engineers and the members of the department for the prompt and able manner they have discharged their duty; to the police for services rendered; to G. W. Austin for furnishing horses; and to Chief Casey of Cambridge, for apparatus; also, to Chief Frost, of Belmont, for refreshments at fire.

Respectfully submitted.

CHARLES GOTT,
Chief Engineer.

LIBRARIAN'S REPORT.

Number of volumes in the Library, July, 1882	8,118
Number of magazines taken by the Library	8
Number of books added in 1882	583
Number of books loaned	26,734
Number of magazines loaned	563
Largest number of books and magazines delivered in one day	247
Number not returned to the Library from July, 1881, to July, 1882	0
Registration of book borrowers during the year	257
Whole number of registered book borrowers	1,847
Fines paid to the Town Treasurer in 1882	$81 00

LIZZIE J. NEWTON,

Librarian.

ARLINGTON, Dec. 30, 1882.

SCHOOL COMMITTEE'S REPORT.

The School Committee respectfully submit the following as their Annual Report: —

It is a wise provision of the State law which requires that "The School Committee shall annually make a detailed report of the condition of the several public schools," and "shall cause said report to be printed for the use of the inhabitants." Chosen by the town to look after one of its most important interests, if not *the* most important, it is right that an account of the strictest character should be rendered as to the manner of discharging this trust, and as to the results which have been reached. For, at the present time, without such a report, the majority of our townspeople would possess a very limited knowledge indeed of the general condition of our schools; of the work accomplished in the school-room and the results there secured; of the relations existing between teachers and scholars, and of the general management of the several important interests watched over by your School Board.

We quickly reach the conclusion that there exists a real need of a full report, upon examining the school registers, which are kept by each teacher in accordance with another State law, and in which are carefully recorded the names of all visitors who have encouraged teachers and

scholars at any time during the year, by looking in upon them during their working hours. We are sorry to find that of late the school registers all show a scanty number of visitors. The names of few parents, and especially of very few fathers are found recorded; and, consequently, the great majority of our towns-people must depend upon the school report for such information as they may wish in regard to the general condition of our schools and their prosperity.

We cannot urge too strongly upon all parents, and upon all the friends of our public schools (and we know that there are in Arlington many who, though having no children, are yet the strongest friends and supporters of our schools),—upon all these we cannot urge too strongly the importance of an early visit to our schools generally, at least once during each school year, and, particularly, of visiting that school in which their own children or young friends are receiving instruction, in order to cultivate the acquaintance of the teacher in charge, to observe the general tone and atmosphere of the school-room, and to see for themselves how our school affairs are generally managed. In this way alone will all be prepared to give teachers and School Committee that encouragement and support which should be ready on all occasions when our schools become subjects of dispute, and when sharp criticisms may be made as to the discipline, methods of instruction, or general results.

We have had special occasion during the past year to mark the importance of a knowledge of our schools obtained by such personal observation. Several times disputes have arisen or criticisms have been made, based upon statements made honestly enough by scholars to their parents. But the scholar is quite apt to see only his own side of the question, and to take that narrow view of the case which is quite natural, unless he is careful to observe that the matter in dispute concerns not simply one scholar, but perhaps

several hundred. And so the parent hears an account of the case which is apt to be one-sided, and which, without much thought, he at once considers reasonable. But in the majority of cases, the true state of affairs has been quickly appreciated, when the parent has consulted with some member of the School Committee, or with the teacher, or, better still, by such a visit as we have just advised. And the result has been, almost without exception, that teachers and committee have been most strongly supported.

During the sickness of Mr. Armes, it became necessary to employ as substitute in the Russell Grammar School, Mr. Thomas W. Proctor, a teacher of wide experience, of broad views, and a careful observer. Very soon after taking charge of the school he remarked that he found here something entirely new to him, namely, a lack of that enthusiasm for studies and for general school work, which is usually seen among children; a lack which he observed throughout the building from the highest to the lowest grades. During his fortnight's stay with us, he made it an object of special study to obtain a satisfactory answer for this condition of affairs. Before leaving us he reached a conclusion which seems to us to be the true one, and which confirms the position we have taken as to the importance of personal knowledge of school matters. His conclusion was that the trouble is to be found mainly at home, and that in this town, as elsewhere, we can expect to find among our children eagerness to attend school, love for their studies, respect for teachers, care for deportment in school, and some slight attention to good manners and politeness in going to and from school, when parents show their children, by occasional visits and in other ways, that they too are interested in school affairs and are working with teachers and committee to secure that harmony and good feeling which should always exist.

There is nothing in which your committee and teachers need the help and support of parents so much as in the matter of discipline. While the discipline has been good in the main, in some of our schools there is room for the most marked improvement. During the year it has been necessary to suspend temporarily quite a number of scholars, and the cases have not been confined to any one school. We are sorry to say that in several instances some of our school girls, who ought now to be young ladies, have been obliged to present themselves to the School Committee for permission to return to school.

This has proved to be a most effectual method of punishment, and we are glad to say that, here too, the parents have invariably supported us when fully understanding the circumstances of each case.

In one instance it became necessary to enter complaint before the trial justice in a case of confirmed truancy in the Cutter School District. The boy was committed to the Reformatory School at Lowell, but only after all other measures possible had been tried without success. In another case, after an aggravated disturbance about the Russell School House, the committee felt compelled to enter complaint before the trial justice against the ringleader, a boy whose age placed him beyond the reach of the truant laws. On account of this and other misdemeanors he was committed to the Reform School at Westboro', during his minority. These were quite prominent cases and have served as good examples to convince our school children that their deportment is considered of the greatest importance. We have noted much improvement of late.

At the last annual Town Meeting in March, your committee asked for and obtained quite an addition to the usual appropriation for school purposes, with the view of making some repairs known to be needed on some of the buildings. The prudential committee, Messrs. Swan,

Wood and Winn, took charge of these matters. It was found that more or less repairs and improvements were needed upon every building and that our appropriation was not large enough to warrant many repairs that could be made with advantage and which no one would care to neglect upon his own private buildings. It became, then, quite an important question as to what repairs could be delayed till another year, when another special appropriation could be asked for. Some of these needed improvements will be referred to, and they ought to receive attention as early as possible during the coming school year.

The Cotting High School and grounds are now in excellent condition. As we approach this building and observe the general appearance, both outside and inside, the comparison with former years is decidedly in favor of the present. But little was done upon this building. A little whitewashing was attended to, and a few shingles were placed upon the roof to cover leaks; but this method of stopping leaks is ineffectual, and the building should be shingled during the coming year without fail. Later in the year, an attempt was made to improve the ventilation in the upper schoolroom by cutting a large hole in the ceiling and allowing the escape of foul air through the cupola. This plan was quite a success, and the matter of ventilation is now well attended to. This building is an extremely cold one, and during the coldest weather is warmed with much difficulty,—a difficulty which becomes greater every year, for some reason not clear to us. It seems a pity to send our children to a school which is kept in a room so cold that during the winter months the teacher rarely thinks of throwing off his outside wraps before the expiration of at least two hours, or nearly half the whole session.

For several years, when the question of necessary repairs has come up, it appears to have been the general inclination of all your committees to do as little as

possible on this building; and each committee in its turn has been inclined to spend but little money here, looking forward to the day when the town or some of our liberal and wealthy friends may see fit to give us a building which will be as much credit to the town as the school which is kept there. At the present time we do not feel prepared to ask for a new building, but are content to urge the necessity of doing every thing possible to keep the building dry and warm enough to be safe. It may not be out of place to recall a plan, which is by no means a new one, and which we wish might reach the eye and the heart of some one able and willing to carry it into execution.

Our town is very much in need of three buildings which might be combined into one with convenience and economy. Why cannot some good location be selected and a building placed thereon which will be useful in its several departments and an ornament and a valuable addition to the town? Such a building might contain our High School with its valuable B. E. Cotting library, our Public Library with its much needed reading-room, and a Memorial Hall in honor of those brave men who represented our town in the late war of the rebellion,—Arlington having as yet neither hall nor monument, commemorative of those trying times.

At the Russell School it was thought best to make at once all necessary repairs, since we had been trying to meet the case for several years. Very little had been done upon this building since its erection in 1871. The repairs have been done so thoroughly and so well that at least fifteen years ought to elapse before further extensive repairs are needed. The blinds and the wood-work on the inside of the building were thoroughly cleansed, and a new coating of varnish applied, in place of the oil and resin put on under the contract and which made a surface so gummy and sticky that it collected every particle of dust which came in contact with it. The wood and iron-work on the outside were painted.

The window-runs were oiled and the sash painted. There is one improvement which must be made soon in this building, and perhaps it could be made with advantage at once. For several years it has been necessary to hold a school at one end of the hall in the third story. If the hall could be partitioned into two rooms, the smaller rooms could be heated with far more ease and economy than at present; and an extra room would be furnished which will soon be needed and which may be necessary at any moment.

The sanitary arrangements here are not of the most approved character, but all improvements possible under present circumstances have been made already. A few years ago the Secretary of the State Board of Health examined the premises, and while he would not advise any radical change, he remarked that we must expect trouble sooner or later from the location of the privies and urinals in the basement. But while water can be used there as freely as at present, no danger need be feared, provided the cesspools outside the building prove adequate to their intended purpose.

At the Crosby School the yard was graded so as to get rid of several large pools of water which gathered after every storm; and a concrete walk was put in from the sidewalk to the school entrance, twelve feet in width. Inside the building, some whitewashing was done, black-boards were repaired, and in the second story a new floor was laid in the girls' entry. Needed improvements are an entire new floor in the second story, some of the boards being already worn nearly as thin as paper, and a good coat of paint, outside and inside.

At the Cutter School few repairs were absolutely necessary aside from those usually met with, such as repairing leaks in the roof, whitewashing, etc. This building should be painted.

At the Locke School several loads of gravel were placed at the boys' entrance and the grading was thereby improved.

The building was painted on the outside. A room should be finished immediately for school purposes in the upper story of this building, as your committee feel that in the present crowded condition of the three upper rooms in this district, an extra teacher and, consequently, a new room may be desired at any moment.

The question of a supply of fresh water for this building has been one of no small importance. It has given us much thought, and we are still in doubt as to the best solution of the problem. Theoretically, the school already has in its filtered cistern water a supply of the purest fresh water which can possibly be obtained. But many parents do not care to have their children drink cistern water, and object to its use for drinking purposes on the score of the taste. At present we meet the difficulty by means of a water tank which stands in the entry, and which the janitor keeps filled with water from neighboring springs of unquestioned purity.

At the beginning of the school year in September, 1882, we felt that we had cause to congratulate ourselves and the citizens of our town, since our full corps of efficient teachers remained with us, giving us reason to anticipate another year of general prosperity for our schools. But at the end of eight weeks, we were suddenly called upon to mourn the loss by death of Mr. Henry L. Armes, master of the Russell Grammar School. It is a rare thing for our town to lose one of its public servants in the active discharge of his duties, and looking back over the town's history the best authorities recall but two other instances in which the town has lost school teachers by death. Mr. Armes was a young man who, to all appearances, had a brilliant future before him in his chosen profession; he seemed peculiarly fitted by nature for his work, possessing the happy faculty of making every scholar his friend and of winning the good wishes of all who met him. Ample proof of this was shown in the

wide-spread grief at his death, though he had been living in Arlington only two years.

The vacancy occasioned by the death of Mr. Armes was at once filled by the transfer of Mr. Horace A. Freeman, master of the Cutter Grammar School. Mr. Freeman had been in charge of the Cutter School for three years, and this school had never been in better condition than under his management, both in scholarship and discipline; the results reached, as shown by the examination entrance papers to the High School, had been all that could possibly be desired by the sharpest judge. Mr. Freeman had frequently given expression to his desire for promotion, whenever possible, and looked upon this transfer as a promotion. It seemed to be a simple act of justice to make the transfer, and thus acknowledge in a public and substantial manner our appreciation of his merits as a teacher. In making this change your committee strove constantly to work for the greatest good of the grammar schools taken as a whole. This transfer, of course, caused a vacancy in the mastership of the Cutter Grammar School, which was filled at once by the choice of Mr. L. L. Conant, a graduate of Dartmouth College, who had made teaching his profession since leaving college three years ago, and with marked success. With these exceptions, the same teachers remain in charge of the several departments as at the last report.

Taken as a whole, our schools are in a very satisfactory condition, and generally in safe hands. The results reached in the several schools seem to compare favorably with what is seen in schools of equal grade in other towns and cities which possess the same advantages. We mention here two occurrences of the past year as proofs that the results obtained are satisfactory.

Early in the year, Prof. George A. Walton, agent of the State Board of Education, passed a few hours with our schools. While visiting the first class in the Russell Gram-

mar School, he asked permission, which was readily granted, to give the class one of his famous tests. During the forenoon of the same day, he gave exactly the same test in one of Boston's grammar schools of equal grade. According to his system of marking, the Boston scholars received an average of about 53 marks on a scale of 100. The Russell Grammar scholars received an average of 81. The result pleased Prof. Walton so much that he expressed much regret that the work had not been done with pen and ink instead of with pencil, so that he could keep the papers for future reference. The examination could not have been more of a surprise to the scholars, and brought in mainly the work of previous years, so that the credit for the result belongs chiefly to the teachers of the lower grades. Again, not long ago, some examination papers written by scholars in the High School, were sent for criticism to the master of one of the largest and best known of the preparatory schools fitting pupils for Harvard College. The papers were examined and pronounced to be "all above the average;" and referring to one paper written by a young lady and containing a translation of Latin at sight, the teacher says, "I don't think I ever had a boy who could do so fine a piece of work. I couldn't have translated it so elegantly."

The graded system continues in use and has now passed through so long and so severe a trial that its success is assured beyond a doubt. We are ready to admit the marked success of this system and its many advantages over the old plan of mixed schools. But it has some disadvantages so important that we cannot overlook and ignore them. The teacher's success with many children depends entirely upon the prompt recognition of individual peculiarities, and a thorough mastery of the child's character. In most cases, to be sure, these peculiarities are readily seized upon by the teacher; but weeks and perhaps months are required in other cases. A scholar of average ability is

promoted at the end of the school year and comes under the care of another teacher, who, in turn, may work hard for weeks before the best results are secured. Could the teacher in such cases continue in charge of the scholar for two or three years in succession, the results of hard labor in teaching must be more apparent and far more satisfactory to teacher and parents.

Under the graded system, and with our present course of study, the teacher can give but little time to a review of the work of preceding years. While under the old plan the scholars were essentially reviewing this work while overhearing, in the same room, the recitations of classes going over the same ground. And it used to be no slight advantage to listen to the recitations of those more advanced and studying higher branches. It might seem that the scholar's attention would be taken from his own work, and that while listening in this way he must be working at a disadvantage and wasting his time, every moment of which ought to be spent upon his own work in hand. But certainly it was otherwise in the experience of some of your committee; and we well remember how our knowledge of the work of previous years was kept fresh by such reviews, and with what interest we followed the work of higher classes, being stimulated to our own work in no small degree by observing that it would fit us to understand the more advanced work before us.

It is an important question, and not a new one, as to whether or not it is best that the whole object of instruction in our Grammar Schools should be to fit scholars for work in the High School, and to prepare them to pass the entrance examinations with satisfaction. A large number of our children go through the Primary and Grammar Schools with the knowledge that their school days must be limited to these schools. Is our preparatory course of study the best for this large class of scholars? And, if there is a

course better adapted to the wants of these scholars, ought not our schools to offer them the advantage of it?

Some suitable diploma, too, or Grammar School certificate might be provided with advantage, for those completing an assigned course of study in the Grammar Schools. In many cases such a diploma would be a stimulus to better work, and might ultimately induce many to complete the course of study, and thus keep our schools with fuller numbers.

During the coming year, the Rules and Regulations of the School Committee, as well as the whole course of study in the Primary and Grammar Schools, should undergo a complete revision; the examinations for entrance to our High School during the last few years showing marked defects, particularly in arithmetic and language. The work ought to be entered upon early in the year, and we would suggest that the sub-committee having this matter in charge might consider also the questions just alluded to, of a more complete review of the work of past years, of a course of study better adapted to the wants of those not intending to enter the High School, and of a Grammar School diploma.

We would respectfully ask that parents and others, who have any interest in these questions, will feel free to consult with the committee in regard to these points, and will suggest any change which their own experience would lead them to think might improve the course of study.

There remains but little to be said in regard to the schools when considered individually. From the reports of the various sub-committees we can say that the prosperous condition of former years continues; and in many cases there is an improvement over the prosperity of former years, if that is possible. The High School continues to take rank among the foremost schools in the State, in its Classical Department. It continues to send its representatives to college with marked success at the entrance examinations; and in the Harvard Annex for young ladies, one of our

graduates maintains the honor of our school by holding the foremost position in her class. The English Department is being constantly improved and broadened, and the additions to the B. E. Cotting library will ultimately lead to the establishment of all that can be desired in this department.

During the summer, we were in danger at one time of losing all our teachers; but after much anxiety we were extremely gratified to enter upon another year without change. It should be mentioned that the record which Mr. Chas. M. Clay has made as principal, by his love for his work and his unceasing energy, has placed him among the best High School teachers in the country, and in August his call to take charge of the High School at Lynn was so urgent that we were enabled to retain his services only by an increase of salary to $2000 per year; and even then he might have left us, had not some generous friend of our school, whose name is not known to your committee, but who has no direct interest in the school as parent or intimate friend of pupils, offered to add what would make his salary equal to that promised at Lynn. $2000 seems a large salary for the town of Arlington to pay its High School principal, in the present state of its finances. But we feel that all will agree with us that our town has tried cheaper teachers long enough, that the experiments have been too costly in the end, and that the present high standard of the school forbids any such change now.

The Russell Grammar and Primary Schools showed results under Mr. Armes and his assistants which were in every way satisfactory to the sub-committee in charge. Under Mr. Freeman's management there is a promise of improvements of the most marked character throughout the building. In a school as large as this, there ought to be some arrangement by which the principal could superintend the work in all the grades. The entire charge should be placed freely in Mr. Freeman's hands, in order that complete harmony may exist in the instruction given in the successive grades.

At the beginning of the fall term, in September, a new arrangement of classes became necessary. In the third grade, Miss Turner was found with a class of 65 scholars; while in the two divisions of the fifth grade Miss Flanders had 33, and Miss Tupper 23. The third class was evidently too unwieldy for any teacher, and was therefore divided into two classes, while one class was formed in the fifth grade. Miss Turner and Miss Tupper took charge of the two divisions of the third grade, with 33 and 32 scholars respectively.

The fifth grade was left under the care of Miss Flanders, whose success with larger classes in former years gave us ample proof that we were not making a doubtful experiment. Her class of 56 scholars dropped to the number of 50 at the beginning of the winter term.

The Cutter School gave the sub-committee no thought and no anxiety whatever under the guidance of Mr. Freeman and his assistants. Some of the remarks offered early in this report apply with special emphasis to the condition of affairs in this school since the change brought about by the death of Mr. Armes. At one time there seemed to be some question as to the ultimate result; but since parents have more fully appreciated the situation after consulting with the committee, the sub-committee in charge of the school report that matters have gone on more smoothly, and that they hope, with the cordial support of parents, to very soon see the school standing in its former position and giving them no more than the ordinary care. It may seem invidious to select one teacher for special mention in a report like this, and yet it would not be just to slight a case so prominent as the following. There is nothing which gives your committee more genuine pleasure than a visit to the school taught by Miss Mary E. Stiles. We suggest to our townspeople that the school, which might with much propriety be called "our model school," is within their easy reach for inspection in the Cutter Grammar School.

We consider it commendation of the highest character that the sub-committees having charge of the Crosby and Locke Schools report that there are no adverse criticisms to make. The relations between pupils, teachers, parents and committee were never more pleasant, and result in the preservation of the high standard of former years.

Finally, Mr. Leonard B. Marshall continues to hold the position of instructor in music and singing, giving entire satisfaction to the sub-committee on music. They are highly gratified with the results observed during the singing hour, and look upon Mr. Marshall's success with the younger classes as something unusual. They feel that, in those instances where parents may have expressed doubts as to the advances made by their children, the fault lies in the pupil's inattention and lack of taste, rather than in the instruction given.

WILLIAM A. WINN,

Chairman,

For the School Committee.

GEORGE A. STEARNS, WILLIAM S. GIBSON.

POLICE.

JOHN H. HARTWELL,
GARRET BARRY,
P. J. SHEAN.

SELECTMEN'S REPORT.

Report of Selectmen for the year ending Dec. 31, 1883:

Highways.

Appropriation,	$9,000 00
Sidewalks,	500 00
Received for labor, concreting, watering streets, etc.,	3,206 30
Expended,	12,741 96

The following statistics are taken from the report of the Superintendent of Streets:

Total number of loads of gravel and stone used upon streets and sidewalks, distributed as follows:

Arlington Av.,	1354 loads	Lowell Street,	2006 loads
Appleton Street,	190 "	Mystic "	36 "
Appleton Ct.,	13 "	N. Union "	587 "
Broadway,	6 "	Oakland "	73 "
Bow Street,	246 "	Pleasant "	39 "
Chestnut Street,	36 "	Pleasant-st. Place,	81 "
Eastern Av.,	16 "	Park Av.,	66 "
Florence "	1091 "	Summer Street,	32 "
Forest Street,	28 "	Vine "	273 "
Highland Av.,	46 "		
Total,			6219 loads

Arlington Avenue.

A section near the Butterfield estate has been repaired by crowning with stone and gravel. Repairs have been made nearly the entire length of the avenue by filling the holes and depressions with screened stone and gravel.

Bow Street.

The gravel taken from the hose-house cellar was used on this street.

Florence Avenue.

This street was accepted by the town at the March meeting, and has been placed in good condition at a cost of four hundred and sixty dollars, including paving the gutters with stones part of the way. Catch-basins at the foot of the hill and culverts across Vine and Appleton streets have been put in.

Highland Avenue.

The gutters have been cleared and thrown into the middle of the street.

Lowell Street.

Several hundred feet of this street have been repaired with stone and gravel, also several hundred feet of sidewalk rough graded with gravel taken from the new filter at the reservoir, also brick culvert and catch-basins have been put in.

North Union Street.

A large portion of this street has been put in good condition by the use of slate chips, from Cambridge ledge, covered with gravel.

Oakland Avenue.

This avenue has been repaired the last year.

Park Avenue.

Some gravel has been used on this avenue the past year.

Pleasant-street Place.

Accepted by the town last spring and has been placed in good condition.

Vine Street.

This street has been put in good condition by clearing the gutters and crowning with gravel.

Culverts.

Five brick culverts and six catch-basins have been put in; several culverts have been relaid and eight water-grates have been set.

Watering Streets.

The same streets have been watered as last year.

Guide-boards.

Several guide-boards have been repaired the past year.

Railings and Bankwalls.

An unexpected expense was incurred by the falling of the bankwall on Lowell Street. The wall has been rebuilt

on the line established by the County Commissioners some years ago, Mr. Schwamb giving the land. This wall has been railed, also the wall by the Eaton estate.

Stone Crusher and Stones.

There is considerable crushed stone on hand; and quite an amount of stone in the yard for crushing. The engine and boiler are in good condition but the crusher is very badly worn.

Teams and Tools.

A pair of horses were purchased the past year. The teams and tools are in good condition and of as much value as last year.

Almshouse.

Mr. George W. Austin and wife have had the care of the Almshouse the past year and have performed their duties in a very satisfactory manner.

Amount of appropriation,	$1,700 00	
Received for board, products, etc.,	422 96	
		$2,122 96
Expended for supplies,		2,116 24
Whole number of inmates for the year,	12	
Present number,	6	
Number of tramps fed and lodged,	166	

The furniture and fixtures in the house are in good condition, and of the same value as a year ago.

Two bath-tubs have been put in; a hot-water tank has been attached to the range and connected with the bath-tubs

and wash-rooms; most of the walls have been whitened, and two ceilings have been replastered.

Outside Poor.

Appropriation,	$2,000 00
Expended,	1,952 84
Balance unexpended,	$47 16

There are five persons at insane asylums, supported wholly by the town.

Street Lamps.

There were fifty-eight new street lamps erected the past year: twenty-one at Cresent Hill and Lowell Street; one on Russell St.; one on Pleasant-st. Place; one on Maple Street; six on Summer Street; twenty-eight on Mystic Street. The one at the Park on Mystic Street and the one at the Almshouse on Summer Street were paid for by the town. The gasoline lamps have been lighted and kept in repair by the Globe Gaslight Company on contract. The gas lamps have been lighted by Mr. John Roden, employed by the town.

Coal.

Coal was furnished by Mr. David Richards, he being the lowest bidder, for the sum of $5.45 per ton, and thirty-five cents extra for Lehigh.

Cemeteries.

Mr. F. Lemme has had the care of the cemeteries the past year. The trees on most of the avenues and paths were thinned out, they being too thick to grow well. A new service-pipe was put in near the south driveway. We would recommend the restaking of the new part.

Police,

During the year just closed, the police force has been the same as for several years past. On the first of January, 1884, Mr. Eugene Mead was appointed Chief in place of Mr. Hartwell. The following is a report of the Police Department for the year ending Dec. 31, 1883:

Whole number of arrests:		
Males,	103	
Females,	17	
	—	120

CAUSES OF ARRESTS:

Disturbing peace,	4	
Drunkenness,	23	
Assault and battery,	24	
Violating town by-laws,	4	
Assault on officer,	4	
Wilful trespass,	13	
Larceny, simple,	6	
Violating liquor law,	27	
Fishing on Lord's day,	3	
Malicious mischief,	4	
Other arrests,	8	
	—	120

The whole number of liquor warrants sworn out, including search warrants, was thirty-eight; and, as the citizens can see by the above report, twenty-seven of the above were prosecuted in court, and of these I have lost only four. In one case I could not hold the liquor taken, and the other three were discharged by the court, although I think the cases were good and the parties should have been held. The amount of liquor taken has been between sixty-five and seventy gallons, all of which, with the exception of about six

gallons, has been turned over to the State, and the amount of fines and costs imposed on the above warrants in the Third District court was $712.08. The department has attended all alarms of fire, and rendered assistance in fifteen cases of accidents. Intoxicated persons helped and sent home, forty. Disturbances stopped and cases investigated, all of which were remedied without prosecution, forty-five. Two persons have been conveyed to the Massachusetts General Hospital. The number of tramps sent to the alms-house, one hundred and sixty-eight; number of tramps put up at the station, thirty-five. Total number provided for, two hundred and three.

JOHN H. HARTWELL, *Chief.*

Town Debt.

There has been $47,000 of the town debt, bearing 7 per cent. interest, paid in 1883; $28,500 has been paid from the Sinking Fund, and $18,500 by issuing 4 per cent. coupon notes which were sold at a premium; $58,500 of the debt has been paid within two years.

William Penn Hose Tower.

The Board of Selectmen thought it not advisable to raise the tower, but adopted the plan of hanging the hose double over a drum or a cylinder, which the Chief Engineer says works well. A one-thousand-pound bell has been placed in the tower.

Highland Hose-house.

By a vote of the town at the annual March meeting, it was voted to build a hose-house on the site of the old one; and

the Board of Selectmen were appointed a committee to build the same. After examining plans and buildings in other towns, they thought it best to employ James M. Chase to draw plans and specifications for a building suitable for a hose carriage and steamer, as it is thought one will be needed in that part of the town before many years. It was thought best to have only one room finished in the second story for a company room, and not to have the place for the horses finished. After advertising for bids, only one was received, from R. A. Hines & Son of Somerville, who received the contract, they agreeing to build it for $5,875. It is nearly completed, with the exception of some extra work which will cost from two to three hundred dollars more.

Fire Department.

As heretofore, we refer you to the report of the Chief Engineer.

Conclusion.

For the receipts and expenditures in detail, reference may be had to the Treasurer's Report.

Respectfully submitted,

HENRY J. LOCKE,
SAMUEL E. KIMBALL,
A. WILLARD DAMON,
Selectmen of Arlington.

TREASURER'S REPORT.

EXPENDITURES.

HENRY SWAN,
JOHN P. WYMAN,
B. DELMONT LOCKE, *ex officio.*

Trustees of Pratt Fund.

ARLINGTON, Dec. 31, 1883.

REPORT OF WATER COMMISSIONERS.

The Water Commissioners respectfully submit their annual report. At the annual meeting in March last, the town appropriated the sum of five thousand dollars to be expended by the board, in accordance with their best judgment, to further increase the supply of pure water. After full deliberation, and consultation with several experts, it was decided to make excavations at the foot of the dam near the gate-house; and there was found, at this point, very good filtering material. A trench was dug from this to the brook, to take away the water, and also to test the material the entire length of the dam, which was found to be very good the most of the way. It was also found that, near the gate-house, pipes could be driven to the depth of twelve feet before striking blue gravel. An engine and pumps were obtained, to pump the water which was coming in quite freely; and a basin one hundred feet long and twenty feet wide was excavated. On the easterly side and southerly end of this basin, a trench was dug down to blue gravel, and in this was erected a boxing of two thicknesses of plank, one of which was matched, and between these was puddled one foot of clay, thus making the basin water tight on these sides.

A heavy wall was laid on both sides and ends, to secure the safety of the dam and as a foundation for the roof to

cover the whole; thus we have a filtering gallery ninety-eight feet long and fourteen feet wide inside, covered with a wooden roof, the filtering bed being composed of sand and loose gravel of the depth of from two and a half to four feet. The main pipe in this gallery was disconnected, thus taking the water from the original filter into this.

Later in the season, it was decided to further increase the supply of filtered water; consequently the pipes connecting the brick arch filter (on the flats, so called) with the large gallery on the easterly margin of the reservoir were taken up, because they were laid with open joints and did not filter, and a brick arch, three feet wide on the bottom, was constructed, three hundred and seventy-five feet long, connecting the two together; thus we now have, at this point, a brick arch four hundred and seventy feet in length. We think, from this source, we shall gain a very large increase of good filtered water.

The amount expended for increase of filtration is $3,137.11.

The entire length of the brook, from the meadows to the reservoir, has been cleared of weeds and bushes, the past season; also the rip-rap around the reservoir has been cleared of weeds. The land about the meadows has been let the past and for the ensuing season to Mr. F. Alderman, for pasturing.

In view of the outlay of quite a sum of money, and of the fact that we have a supply of good filtered water sufficient, as we think, for all domestic purposes at the least, we would recommend to the town, at its next annual March meeting, the adoption of a change in the tariff of water rates, thereby securing to the town an additional income from its water works, and this change, as has previously been reported, would make the cost to each individual taker no more than is charged in all other towns.

REPAIRS.

This work has been performed, since April 1, under the direction of the Superintendent, by employees of the highway department. There have been added to the construction twenty new services. Thirty-four new service boxes have been put in; sixteen services have been dug up, and the corporation cocks cleansed. One new twelve-inch gate has been put in; ten hydrants have been taken up and repaired. Twenty-six leaks have occurred, and all have been repaired by the use of iron clamps, when it has been possible to do so. A large portion of these leaks have occurred where they have been previously repaired by winding; most of them have been in the joints, showing conclusively that the pipes were at first improperly laid. Nearly all of the main gates have been dug up and repaired, several wooden gate-boxes have been replaced with iron ones.

A detailed account of the receipts and expenditures may be found in the report of the Registrar.

Uses for which water is supplied, as reported by the Registrar:—

Families	supplied,	449
Stores and shops	"	16
Private stables	"	51
Livery stables	"	2
Horse-railroad stable	"	1

B. DELMONT LOCKE, *Treasurer.*

Sections 15 and 16 of Rules of Water Works.

SECT. 15. The following rates shall be charged annually for the use of water, namely :—

DWELLING HOUSES.

Occupied by one family, for the first faucet,	$5 00
For each additional faucet, to be used by the same family,	2 00
Where a house is occupied by more than one family, and less than four, one faucet only being used for each family,	4 00
Where a house is occupied by four or more families, and but one faucet is used by all, for each family,	3 50
Where a house is occupied by more than one family, the highest rates will be charged for each family having the water carried into their part of the house.	
For the first bath-tub,	5 00
For each additional bath-tub,	3 00
For the first water-closet,	5 00
For each additional water-closet,	3 00
For hopper water-closets, special rates will be made.	
Where bath-tubs or water-closets are used by more than one family, for each family,	4 00
Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both. *Provided*, that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00

BOARDING HOUSES.

For the first faucet,	$10 00
Each additional faucet,	2 00
Water-closet or bath-tub, when used by boarders,	10 00
Each additional bath-tub or water-closet,	3 00

STORES, OFFICES, WAREHOUSES, ETC., NOT INCLUDING MANUFACTORIES OR WORKSHOPS.

First faucet,	$5 00
When two or more tenants are supplied from the same faucet, each,	4 00
Water-closet used by occupants of one tenement only,	5 00
When used by occupants of more than one tenement, for each tenant,	4 00

For each additional faucet or water-closet, half of above rates will be charged.

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water,	$5 to $25

HOTELS.

For each bed for boarders and lodgers,	$3 00
For each bath-tub in a hotel,	10 00
For each water-closet in a hotel,	10 00

PUBLIC BATHS.

For one tub in public bath-house,	$10 00
For each additional bath-tub,	5 00
For one water-closet in public bath-house,	10 00
For each additional water closet,	3 00

STABLES.

Private Stables.	For the first horse,	$5 00
"	For each additional horse,	4 00
"	For one cow,	2 00
"	For each additional cow,	1 00
Livery, club, and boarding stables. For each horse,		3 00
Car and omnibus stables. For each horse,		2 00
Truck and cart stables. For each horse,		2 00
Provided, that in no case shall any stable be charged less than		5 00

The rates for stables include water for washing carriages without hose.

HOSE.

For hose of not over three-eighths inch orifice, used for washing windows, sprinkling streets (and the use of the same shall be limited to one hour per day), not less than	$3 00

STEAM BOILERS.

For each boiler in use not over twelve hours a day, for each horse-power,	$6 00

BUILDING PURPOSES.

For each cask of lime or cement, 6 cents

HYDRANTS.

Hydrants set by the town at the rate of $28 each, allowing one hydrant to each 200 inhabitants.

SECT. 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners; and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases, in their judgment, the interests of the town shall require.

AUDITORS' REPORT.

THE undersigned hereby certify that they have audited the books and accounts of B. DELMONT LOCKE, as Treasurer and Collector of the Town of Arlington, also as Treasurer for the Arlington Water Works, for the year 1883, and find the same correct, with vouchers for all payments, and the balances of cash as stated by him.

DAVID P. GREEN,
A. WILLARD DAMON, } *Auditors*

ARLINGTON, Jan. 12, 1884.

ANNUAL REPORT

OF THE

CHIEF ENGINEER OF THE ARLINGTON FIRE DEPARTMENT.

To the Selectmen of Arlington:

GENTLEMEN,—In accordance with the rules of my department, I respectfully submit the following report for the year ending Dec. 31, 1883.

MEMBERSHIP.

The membership consists of thirty-seven men as follows: One Chief Engineer, two assistants, twelve men to each Hose-carriage, and ten to Hook-and-Ladder Truck. Three men have been added since my last report.

Assistant Engineer, William S. Gibson, has passed away, and Matthew Rowe, 2d, has been appointed to fill the vacancy caused by the death of Mr. Gibson.

Wm. Penn Hose-house is now in good condition. A bell has been placed in the tower, also a drum for the reeling of hose. With the exception of the above, there has been no expense.

The new hose-house, No. 2, is now occupied by the company; and, when completed, there will be no cause for further expense.

FIRES AND ALARMS.

The department has answered eighteen alarms, a part of which are as follows:

May 6, at mill of Samuel A. Fowle, corner Mystic and Summer Streets; loss, $19,000; insurance, $11,000; cause, unknown. In answer to my call for assistance, a steamer and hose company from Medford, Steamer No. 4 of Cambridge, and hand engine and hose from Belmont, responded and performed noble work.

Aug. 18, house of Patrick Donnelley on Mt. Vernon Street; insurance, $2,250; loss, $100; cause, struck by lightning.

Aug 18, unoccupied house owned by P. McCue; insurance, $800; loss, $1200; cause, unknown. At this fire, no assistance could be rendered from lack of water.

Sept. 27, shed of John Fillebrown, on Warren Street, with sash and mats for hot-beds; loss, $450; no insurance; cause, incendiary.

Oct. 20, stable and coal-shed, owned by Arlington Gas-light Company, on Mystic Street; loss, $100; no insurance; cause, spontaneous combustion of coal.

The above are the principal fires for the year.

HOSE.

The hose of the department is in good condition. A lot of old leather hose has been sold, and four hundred feet of new purchased.

INCREASED FACILITIES.

In connection with this, I merely call your attention to the unusually long distances some of the hydrants are apart, but make no suggestions at this time.

APPROPRIATION.

I would recommend an appropriation of $2,500 for expenses for the ensuing year.

In conclusion, allow me to thank your board, also the engineers and firemen of the department, for the generous support given.

Respectfully submitted,

CHARLES GOTT,
Chief Engineer.

REPORT

OF THE

TRUSTEES OF THE PUBLIC LIBRARY.

As long ago as 1880, the Trustees announced in their Report that enlarged accommodations for the Library would soon be required, and recommended the establishment of a reading-room. The necessity of more room for our book-cases has now become urgent. They are already so crowded together that much embarassment is caused, when it often becomes necessary for two persons to deliver books from the same alcove; and the introduction of more book-cases in our present quarters will be attended with serious inconvenience.

At the same time the very great desirability of a reading-room, as a means of increasing the usefulness of the Library, and of promoting the moral and social welfare of the community, has been recognized by a large body of our most intelligent and influential citizens. The town, always prompt and generous in its regard to the interests of the Library, at the March meeting of 1882, referred the question to a committee composed of the Trustees and the Selectmen, who, at the next March meeting (1883), recommended, as the most available additional space, the annexation of the room occupied by the post-office. The removal of the post-office from so central a point, however, was a matter for serious consideration; and the town no doubt acted wisely

in once more appointing the Trustees and Selectmen a committee to reconsider the question. We have since given to it careful study, and expect to be able, at the next meeting, to present a plan for the enlargement of our quarters and the establishment of a reading-room which shall recommend itself to the favor of the town.

While adding new books to the Library, we have endeavored to increase the usefulness of those it already contains. We are indebted to the volunteer services of friends for a manuscript Class Catalogue of works of History, Travel, and Geography, which should have been acknowledged a year ago; for a short Reference List of Greek History, lately prepared, and another of Roman History, which will be ready early in the year. These will be found very useful in showing the student, at a glance, whatever the Library affords on any of the subjects mentioned. To the same end, a Card Catalogue of all the books added since the Catalogue-Supplement of 1881 was issued, is now in preparation.

The editor of the *Advocate*, who continues kindly to publish our lists of new books, has also consented to print in his columns weekly Library Notes, descriptive of the most noteworthy additions to our shelves. Nor must we neglect to mention a matter of especial interest to our fellow-citizens at the Heights, viz.: the establishment there, through the courtesy of the post-master, Mr. Bailey, of a station for the weekly delivery of books.

Our indebtedness to Mr. Parker for complete files of the *Advocate*, at the end of each year, has heretofore been acknowledged. We are also under obligations to the editor of the *Middlesex Townsman* for a copy of his paper added weekly to our waiting-room files. Lastly, we have to thank the Trustees of the Ames Free Library of North Easton for a copy of their admirable catalogue.

J. T. TROWBRIDGE,
For the Trustees.

ARLINGTON, Dec. 31, 1883.

LIZZIE J. NEWTON,

Librarian.

ARLINGTON, DEC. 31, 1883.

SCHOOL COMMITTEE'S REPORT.

To the Town of Arlington:

The School Committee submit their annual report:—

The exhaustive report of the year 1882 placed before the town complete prudential details in regard to the school-houses. Certain recommendations were made for changes and improvements, which were accepted, and the necessary appropriation was made to cover the cost. In the Russell School-house, the hall in the third story has been divided into two rooms; and an entry and stairway have been constructed, conforming to the arrangement on the other side of the building. This change leaves one unoccupied room in readiness for the additional school likely to be established during the year. The rooms in the upper story of the Locke School-house were also put in condition for use; and one of them was at once occupied by a new school, rendered necessary by the crowded condition of the other schools in the Cutter District. The Cutter School-house has been painted. Repairs incident to the constant use of the buildings have also been made.

The expense attending these changes has been considerable, but it has been incurred upon careful estimate and with due economy. The town is referred to the report of the Town Treasurer for the particulars of expenditure.

The Committee have in mind but two substantial subjects

calling for extra appropriation. The Crosby School-house requires thorough interior repairs, such as new flooring and painting. The estimated cost of this is five hundred dollars.

Then an equal sum will be necessary to furnish means for warming the High School-rooms. The usual discomfort from cold, and from time to time the consequent dismissal of the school, have marked the experience of this, as of many a former year. The furnace is nearly worn out, and, in replacing it, it has been considered that a more favorable arrangement might be made. The present furnace stands in a school-room in the lower story. The cellar, dug as it was out of a ledge of rock, occupies about half of the ground extent of the building, and itself contains a brick water-cistern now in disuse. By removing the cistern, placing the furnace in the cellar, and extending its conductors to the proper points, it is believed that comparative comfort may be secured. Absolute comfort can come only with a new house.

The graded system on which comment is made in the report from year to year, still exists and works most favorably in the Russell School, where through the convenience of a large building it can be completely applied. In the Cutter School it has reasonable success, but is not a little hindered by the necessity of doubling classes in a single room and of occupying two buildings. In the Locke School-house, two rooms are used for two of the grades from the Cutter District, which are therefore separated from their fellows in the Cutter Building, and are deprived in their work of the advantage of close relation and constant supervision, which are secured where all the grades are assembled in one house. The only remedy is one not likely soon to be applied,—that of duplicating the Russell School-house in the Cutter District.

Certain matters which have received somewhat of public notice have engaged the attention of the Committee. The

course of study for the Grammar and Primary Schools, which has been in use since the graded system was introduced, has come before the Committee for re-examination. The course was prepared with great care by skilful teachers, at the time in charge of the schools, and in the main it has well served its purpose. It may now, after the test of years, admit of modification. The sub-committee having the matter in charge held conference with the teachers in full meeting, and requested that, after giving close observation, they should report severally upon any inequality, strain, or other difficulty which seemed to them to exist. The reason for this reference to the teachers must be apparent, for the knowledge of methods of instruction belongs to their profession in study and practice. The Committee, while they might be able to discriminate between different methods, would hesitate to prepare a system of studies in all its minute details.

Connected with the graded system is a difficulty which every year brings annoyance and disappointment. Of course it is understood that the schools are so graded that in each grade the pupil is required to complete the assigned work in a year, as the condition of his promotion to the next grade. It is intended, in the course of study, that the work shall be such as can be accomplished by the average pupil who attends school and who studies with reasonable constancy and diligence. The test of promotion has hitherto been, mainly, by a written examination at the end of the school year, in which the pupil must have given a certain percentage of correct answers. Common experience has shown that this is no reliable criterion; for even if there be no copying from another's work, or other dishonesty, the indifferent will sometimes succeed and the meritorious pupil fail.

The object of the examination is to ascertain what pupils are prepared for the advanced work. If the pupils are unfitted, then new work will be a constant trouble to them

and the whole school will suffer by the excessive claim on the teacher's time by the incompetent, to the detriment of the normal work of the school.

It is not unlikely that the Committee will determine that, setting aside the final examination, or taking it only partly into account, the work, and conduct of the pupil for the entire year will be reviewed; and regularity of attendance, faithful study, and obedience to rule will be regarded among the qualifications for promotion.

The Committee have in some instances felt compelled to deny promotion. Where this has been for sheer delinquency, the course has been clear. The duty has been painful in meritorious cases, where the disqualification has been apparent. The aim has been to secure thoroughness in one grade, as a preparation for gaining the full advantages of the succeeding. This purpose the pupil never, and the parents not always, can appreciate. Experience has again and again shown that a repetition of study for a second year in the same grade has established a basis for success in the remainder of school-life. The Committee have been fully aware of the disappointment which ensues, but have desired to act conscientiously for the best interests of the child. After a second year, promotion is not denied on the ground of incompetency, except in cases of persistent absenteeism and culpable neglect of study.

Promptitude in attendance on the part of pupils has been commendable. Complaints have come to the Committee, from the Cutter School, of frequent absence through the inconsiderate indulgence of parents. It should be borne in mind that irregularity of attendance not only interferes with the proper education of the pupil and his hope of promotion, but embarasses the teacher and unfavorably affects the school. The support of parents in school discipline is a factor too often overlooked.

During the year, several teachers have resigned. Mr. Charles M. Clay accepted the appointment of Master of the Roxbury High School. His four years' service as Master of the Cotting High School was marked by energy, intense industry, skill in organization, admirable method and discipline. At no time in the history of the school has it stood above the standard established by him. His pupils have, without exception, successfully passed the ordeal of admission, where they have entered the higher institutions of learning. In his place, the committee have appointed Mr. A. G. Fisher, formerly of the Marlboro' High School. Miss Sarah A. Hamlin, first assistant in the High School, was appointed female principal of the Dean Academy in Franklin, and thereupon resigned her position here. Much endeared to her pupils, she greatly contributed by her character, scholarship, and excellent instruction to the success of the school. Miss Marie Elliott, formerly of the Beverly High School, and a graduate of Wellesley College, was appointed to the vacancy.

Mr. Leonard L. Conant, after a year's service as Master of the Cutter Grammar School, in which he evinced fine qualities of education, aptitude for teaching, and the faculty of giving impression by gentlemanly bearing and character, resigned, and has since accepted an appointment as Superintendent of Schools at the West. Mr. N. T. Soule was appointed his successor.

Miss Mary E. Stiles, of the Cutter Sub-Grammar, whom the committee, in last year's report, mentioned with special and well-deserved commendation, resigned upon receiving a desirable position in the Cambridge schools. Her selection for that place was a recognition of her merit. Miss Cora B. Ambrose was appointed to this vacancy.

The crowded condition of the Cutter Primary made it necessary to establish an additional school, which was placed

in the Locke School-house. Miss Margaret E. Collins was appointed its teacher.

The Committee have not found it necessary to particularize in regard to the schools. They feel that they may commend them to the approval of the town as, in the main, in a highly favorable condition; and this is due to the faithful and painstaking labor of the teachers having them in charge.

The undersigned, after three years' absence from the Committee, was called, in consequence of a much regretted vacancy, to resume, temporarily, a position he had formerly for a long time held. That vacancy, by good fortune, is to be filled by its former occupant. The present chairman has been able to see, during the few months he has been in service, how wisely and faithfully the Committee have discharged their trust during the last three years. He now dissolves his connection with the committee, finally and forever.

WM. E. PARMENTER,
Chairman.

ARLINGTON, Dec. 31, 1883.
